Come Join us for our first One Health Seminar!

Objectives:
1. Identify recent trends in the emergence of antimicrobial resistant infections.
2. Identify the biological and behavioral mechanisms that increase antibiotic resistance.
3. Discuss how antibiotic prescribing patterns influence antibiotic resistance.
4. Identify strategies to slow the emergence and spread of antibiotic resistant infections and to improve infection control in health settings and the community.

Schwab Auditorium
Penn State University
Tuesday November 15, 2016
Registration: 7:45-8:15 am and Presentations 8:15-9:45 am

Penn State College of Nursing is an approved provider of continuing nursing education by Pennsylvania State Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation. Presenters, organizers, and content specialists have indicated no conflict of interest. Participants with a valid RN license who attend the entire session will be awarded 1.5 contact hours of continuing nursing education; partial contact hours are not awarded.

This publication is available in alternative media on request. Penn State is an equal opportunity, affirmative action employer, and is committed to providing employment opportunities to all qualified applicants without regard to race, color, religion, age, sex, sexual orientation, gender identity, national origin, disability or protected veteran status.
