**Course Overview**

This 7-week course is designed to introduce students to basic scientific writing skills and is ideal for second year graduate students preparing for qualifying examinations. Participants will review the general principles of clear, persuasive writing, and will apply these principles to writing for a scientific audience. Particular emphasis will be placed on conveying the significance of your research, outlining the aims, and discussing the results for scientific papers and grant proposals. The course will also provide an overview of the structure and style of research grant proposals and scientific manuscripts. Classes are highly interactive, and the majority of class time will be spent discussing student scientific writing. The goal of the course is to encourage active and open interaction among students. Ideal endpoints include improved self-editing, and development of effective strategies for offering and receiving concise editorial recommendations among peers. *Note that substantive discussions about scientific methodology or interpretation of results are outside the scope of this course. All homework assignments are limited to 1 page only!*

**Course Directors:**

Jonathan Katz  
Dept. of Medicine/Gastroenterology Division  
913 BRBII/III  
Phone: 215-746-7780  
Email: jpkatz@mail.med.upenn.edu

Sparky Lok  
Dept. of Pathobiology  
212 Rosenthal  
Phone: 215-898-7892  
Email: jlok@vet.upenn.edu

**Required or Recommended Reading Materials:**

1. The Course Syllabus, including Five Principles of Clear Writing  
The syllabus will be distributed at the first session, as will other short reading materials.

**Class Organization:**

The whole class will meet on **Monday January 11 at 1 pm in BRB 252** for a discussion about the class organization and an introduction to principles of clear writing. The small groups will start meeting the same week on Wednesday, Thursday, or Friday from 1 – 2:30 pm. Each group will be lead by at least two instructors

**Specific Writing Assignments:**

Writing assignments will be designated within each section. Students should email writing assignments to their instructors and students in the section in advance of class (due dates tabulated below), allowing instructors and students to read them in advance of the in-class critique. Students whose samples are not discussed in a particular week will be read and critiqued by instructors only. Students can also arrange to meet with instructors individually to discuss their writing.

<table>
<thead>
<tr>
<th>Section meeting day</th>
<th>Assignment Due date</th>

</thead>
<tbody>
<tr>
<td>Wednesday</td>
<td>Sunday, 3 PM</td>
</tr>
<tr>
<td>Thursday</td>
<td>Monday, 3 PM</td>
</tr>
<tr>
<td>Friday</td>
<td>Tuesday, 3 PM</td>
</tr>
</tbody>
</table>

**Grading Policy:** Grades are based on attendance, completion of assignments, and participation in class, not on the quality of the writing itself. While most students receive an A in this course, grade decrements will certainly result from 1) failure to meet due dates and times, 2) lateness to class by more than 20 min. or 3) missed class, without prior approval of instructors.
2016 Course Overview

Week 1: Introduction
- **Large group meeting – January 11, 1 – 2:30 pm, BRB 252**
  - To be followed immediately by brief instructor meeting
    - Discuss Course goals
    - Weekly topics
    - Logistics (required reading, assignment deadlines, grading policy)
  - Introduce key terms that students will encounter in first assignment
- **Homework assignment for this week**
  - Read “Five Principles of Clear Scientific Writing” in Syllabus
  - Read “The Science of Scientific Writing” by Gopen and Swan
  - Perform rewriting exercises from syllabus (suggested revisions are included in the faculty syllabus and are on pages 33-34 of the student syllabus)
  - Revise “problematic” abstract and specific aims page from syllabus using “Five Principles of Clear Scientific Writing”

Week 1: Principles of Clear Scientific Writing
- **Small group session – January 13-15, 1 – 2:30 pm**
  - Address any questions arising from rewriting exercises
  - Discuss revisions of “problematic” abstract and specific aims page
  - Introduce next week’s writing assignment - **Significance**
- **Homework assignment for next week**
  - Read “Parts of a Grant Proposal and Significance and Innovation”, with examples
  - Write a one page narrative on the **Significance** of your proposal and a **Title** placing your research in context

Week 2: Parts of a Grant Proposal – **Significance**
- **Small group session – January 20-22, 1 – 2:30 pm**
  - Discuss “Significance” write-ups
  - Introduce next week’s writing assignment – **Results/Preliminary Data**
- **Homework assignment for next week**
  - Read “Parts of a Grant Proposal – “Preliminary Data (for grants) Results” in syllabus
  - Write 1-2 paragraphs of Results text with an accompanying Figure and Legend. You can use your data, a colleague’s data, or made-up data. Again, use a title.

Week 3: Parts of a Grant Proposal – **Preliminary Data**
- **Small group session – January 27-29, 1- 2:30 pm**
  - Discuss Results text, Figures and Legend
  - Discuss questions regarding “Parts of a Grant Proposal - Preliminary Data”
  - Introduce next week’s writing assignment - **Specific Aims**
- **Homework assignment for next week**
  - Read “Parts of a Grant Proposal – Specific Aims and Research Design” in syllabus
  - Write a Specific Aims page describing your research (due by next week for all students)

Week 4: Parts of a Grant Proposal – **Specific Aims** – Group 1
- **Small group sessions – February 3-5, 1 – 2:30 pm**
  - Address questions regarding “Parts of a Grant Proposal – Specific Aims, Research Design”
  - Discuss Specific Aims from first group of three students
- **Homework assignment for next week**
  - Read “How to write Approach (grants) and Discussion (papers)
Week 5: Parts of a Grant Proposal – Specific Aims – Group 2
- **Small group sessions – February 10-12, 1 – 2:30 pm**
  - Discuss Specific Aims from second group of three students
- **Homework assignment for next week**
  - Read “How to write an Abstract (grants and papers) and Putting It All Together (grants)”

Week 6: Parts of a Grant Proposal – Specific Aims – Revisions
- **Small group sessions – February 17-19, 1 – 2:30 pm**
  - Discuss revised Specific Aims for all students
  - Summary of class and faculty discussion of grant writing and reviewing
