

CBI Symposium

Friday, Dec. 1st in the Lynch Auditorium

Presented by:

The Fellows of the NIH Chemistry-Biology Interface Training Program

9:30 AM | **Welcome Breakfast** (outside Lynch Auditorium)

10:00 AM | Miklos Szantai-Kis – Petersson Lab

10:20 AM | Alex Kasznel – Chenoweth Lab

10:40 AM | Champak Chatterjee (Univ. of Washington)

Clarifying the Complexity of Chromatin with Peptide Chemistry

11:40 AM | **Lunch Break**

12:30 PM | **Riley Payne** – Foskett Lab

12:50 PM | **Evan O'Brien** – Wand Lab

1:10 PM | **Matthew Paszek** (Cornell University)

Sugar Polymers Sculpt the Plasma Membrane

2:10 PM | **Coffee Break**

2:30 PM | **Emily Balskus** (Harvard University)

Deciphering Human Microbiota Using Chemistry

3:30 PM | **Rina Fujiwara** – Murakami Lab

3:50 PM | **Trevor van Eeuwen** – Murakami Lab

4:10 PM | **Reception and Poster Session** in Nobel Hall
