

The Departments of
Chemistry and
Biochemistry & Biophysics
Jointly Present

Spring 2017 Chemistry-Biology Interface Mini-Symposium

More Than Just 'Genes': The Many Styles of Nucleic Acids

Tuesday, April 11 • 1:30 to 5 PM • Lynch Auditorium, Chemistry Building

- 1:30 PM: **Samie Jaffrey** (Weill Cornell Medical College)
Imaging RNA and RNA Biology with RNA Mimics of Green Fluorescent Protein
- 2:20 PM: **Catalina Achim** (Carnegie Mellon University)
Hybrid Inorganic-Nucleic Acid Systems for Nanotechnology Applications
- 3:10 PM: **Coffee Break**
- 3:20 PM: **Sean Yeldell** (Dmochowski Lab, University of Pennsylvania)
Next-Generation Probes for Transcriptome In Vivo Analysis
- 3:50 PM: **Keynote - Scott Silverman** (University of Illinois)
DNA as an Enzyme
- 5:00 PM: **Reception in Nobel Hall**
