The Department of Chemistry And the Department of Biochemistry & Biophysics Jointly Present

2014 Chemical Biophysics Mini-Symposium Protein Folding

Thursday, November 13, 2014 Lynch Auditorium, Chemistry Building

10:00-10:50 Art Horwich, Yale University
 Mutant SOD1 Misfolding in ALS
 10:50-11:40 Lynne Regan, Yale University
 Folding and Applications of Repeat Proteins
 11:45-1:15 Lunch and Poster Session, Nobel Hall
 1:20-1:40 Tina Ho, Michael Marks Laboratory
 Disulfide Bond Formation Regulates PMEL Amyloid Potential
 1:40-2:30 Keynote: Dennis Selkoe, Harvard Medical School
 New Insights into Protein Misfolding in Alzheimer's and Parkinson's Diseases

Co-Sponsored by
