

The Department of Chemistry
And the Department of Biochemistry & Biophysics
Jointly Present

2015 Chemical Biophysics Mini-Symposium

Tuesday, November 10, 2015

Lynch Auditorium, Chemistry Building

1:30 pm Takanari Inoue, Johns Hopkins

Total Synthesis of Cell Functions: Deconstructing and Constructing Sensory Antenna

2:20 pm Janet Smith, University of Michigan, Ann Arbor

Polyketide Synthase Architecture: Nature's Factory for Antibiotic Synthesis

3:10 pm Coffee Break

3:20 pm Xiaohan Li, Rhoades Laboratory

Tau Binds to Multiple Tubulin Dimers with Helical Structure

3:50 pm Keynote: Nathanael Gray, Harvard Medical School

Targeting Transcription in Cancer with Covalent Inhibitors

5:00 pm Reception, Nobel Hall
