WORKSHOP
Micro/Nano Technology & Frontiers in AIDS Research

HOLD THE DATE: December 11, 2015
Time: 8:30 AM - 1:30 PM
University of Pennsylvania,
Singh Center for Nanotechnology

Thank you for your interest in the SEAS-CFAR workshop. We are delighted that you are able to participate. The workshop will include brief 10-minute presentations by SEAS and CFAR faculty, each talk followed by a 5-minute discussion. We would like to invite you to propose a topic from your area of expertise that is relevant to HIV-AIDS research, diagnosis, and treatment. Please send your proposal by September 18. If due to time limitations, we are not able to accommodate all proposals, the organizing committee will select the topics judged to be of most interest to the participants. In addition to oral talks, we will organize a poster session for faculty, postdoctoral researchers, and students to showcase their work. Please send your proposed topic to jmcgon@seas.upenn.edu.
