The Child and Adolescent OCD, Tic, Trich and Anxiety Group (The COTTAGE) in the Department of Psychiatry at the University of Pennsylvania is pleased to announce a 2017 Clinical Training Workshop.

Dr. Martin Franklin, world-renowned expert in the treatment of pediatric OCD, OC Spectrum Disorders, and Anxiety, along with Ph.D. level faculty and staff from The COTTAGE will provide instruction in the use of Habit Reversal Training (HRT) for Tic Disorders, Trichotillomania, and other body-focused repetitive behaviors (such as skin-picking). This intensive workshop is designed for intermediate and advanced level mental health professionals with a background in cognitive behavioral interventions who would like to sharpen their knowledge of and fundamental skills in providing evidence-based treatments for repetitive behaviors in their own treatment setting.

HABIT REVERSAL TRAINING FOR
PEDIATRIC TRICHOTILLOMANIA AND TIC DISORDERS
MASTER CLINICIAN WORKSHOP
JUNE 23RD, 2017
9AM – 5PM

Participants will receive treatment materials used in providing the therapy and supporting resources for use with patients and families. Refreshments will also be provided, and participants will be given a break for lunch. The cost for our one-day workshop is $300, to be paid at the time of registration. Cancellations before Friday, June 16th will receive a 50% refund.
