

SDSU-UCSD

JOINT DOCTORAL PROGRAM IN PUBLIC HEALTH

Transdisciplinary Training in the
Behavioral and Biological/Biomedical Sciences

Start on your
new path

SAN DIEGO STATE
UNIVERSITY

PRE-DOCTORAL Training GRANT

*A 5-year award from the National Institute
of General Medical Sciences of the
National Institutes of Health (NIH)*

Purpose is to provide focused academic and state-of-the-art research training in the biological or biomedical sciences to pre-doctoral public health graduate students in behavioral science majors.

The goal is to equip future behavioral and social scientists with sufficient training in the biological/biomedical foundations of disease to understand the role of both behavior and biology in the etiology and control of disease.

Who is eligible to apply?

- *Open to citizens and permanent residents of the US.*
- *Individuals from underrepresented minority groups, those with disabilities, and those from disadvantaged backgrounds are strongly encouraged to apply.*

What is involved in the program?

- **Coursework:** *Programs of study are individualized based on the trainee's interests.*
- **Research Training:** *Rotations in both behavioral and biologically/biomedically focused research labs.*
- **Teaching:** *Teaching an undergraduate or master's level course that integrates behavioral and biological principles.*
- **Qualifying Exam & Dissertation:** *Incorporation of both behavioral and biological/biomedical elements into qualifying exams and doctoral dissertation work.*
