Dear [Patient Name]

The investigators of the Age-related Macular Degeneration and Alzheimer's Disease (AMDAD) Study would like to thank you for your participation in the pilot to determine if patients with Alzheimer's Disease are more likely than other people to have the early stage of Age-related Macular Degeneration (AMD), an eye condition that may affect the retina and vision.

The color photographs of your macula were reviewed by Dr.XXXX, MD, PhD, an ophthalmologist specializing in retinal conditions who leads the Fundus Photograph Reading Center at the Scheie Eye Institute, University of Pennsylvania.

- THE PHOTOGRAPHS SUGGEST NO FURTHER FOLLOW-UP CARE WARRANTED AT THIS TIME
- THE PHOTOGRAPHS SUGGEST NEED FOR FOLLOW-UP CARE (SEE COMMENTS BELOW)

If you have any questions or need additional information, please contact XXXX., AMDAD Project Director at XXXX.

Thank you again for participating in the AMDAD Study,

Principal Investigator

Co-Investigator
