Innovation and Professional Development
MARCH 11–12, 2016

9th Annual Penn Live:
GI Endoscopy and Liver Disease 2016

Course Overview and Target Audience
This program is designed to demonstrate the application and execution of therapeutic gastrointestinal endoscopy. Using a format of lectures and live cases, our faculty will address challenges and practical solutions in the endoscopic management of digestive disorders including benign and malignant disorders of the esophagus, gastroduodenum, pancreas, bile ducts, and colorectum. Additional topics will include applications of endoluminal resection, radiofrequency ablation, argon plasma coagulation, ERCP, endoscopic ultrasound, polypectomy, and endoprosthetic therapies. The program will also focus on the current research and recommendations for managing patients with acute and chronic liver disease, including viral and autoimmune hepatitis, metabolic liver disease, portal hypertensive bleeding, refractory ascites, hepatic encephalopathy, liver transplantation and post liver transplant considerations.

This conference is designed for Gastroenterologists, Hepatologists, GI Surgeons, GI Radiologists, Gastroenterology Fellows, GI Nurses, Nurse Practitioners, Physician Assistants, Medical Residents and Medical Students.
