International Clinical Epidemiology Network

1718 members

34 countries

82 Clinical Epidemiology Units

1 CEU under processing

Mission Statement

We are a unique global network of clinical epidemiologists, biostatisticians, health social scientists, health economists and other health professionals affiliated with key academic health-care institutions

We are dedicated to improving the health of disadvantaged populations, particularly in low- and middle-income countries, by promoting equitable health care based on the best evidence of effectiveness and the efficient use of resources

We achieve this by using the network to conduct collaborative, inter-disciplinary research on high-priority health problems, and to train future generations of leaders in health-care research

Brief History

- Started in 1981 by the Rockefeller Foundation
- Initial Training Centers
 - University of Pennsylvania, United States
 - University of North Carolina, United States
 - McMaster University, Canada
 - Newcastle University, Australia
 - University of Toronto, Canada
- Formally incorporated 1991 in Philadelphia

Regional Networks

- 1. CanUSACLEN
- 2. ChinaCLEN
- 3. Euro-MediterraneanCLEN
- 4. INCLEN-Africa
- 5. IndiaCLEN
- 6. LatinCLEN
- 7. INCLEN-Asia
