

Global Health Training Materials

Many academic institutions are developing training programs in global health, and are searching for relevant teaching materials.

This open session will examine the following questions

- 1. What is now available or under development?**
 - Global Health Education Consortium **Tom Hall**
 - Omnimed **Ed O'Neil**
 - Health Sciences Online **Erica Frank**
 - Others?
- 2. What are the needs of institutions that are building a global health curriculum?**
- 3. How might institutions benefit from a collaborative effort in curriculum development?**

Global Health Training Materials
