January 9  Kathy Fange Liu, Ph.D., University of Pennsylvania
  “Control of Cellular Energy Metabolism by Human Enzyme-Mediated RNA Modifications”

January 16  Patrick Seale, Ph.D., University of Pennsylvania
  “Regulation of Brown and Beige Fat Fate”

January 23  Ruth Loos, Ph.D., Mount Sinai Hospital
  “The Genetics of Obesity: From Genes to Biology to Clinical Practice”

January 30  Rotonya Carr, M.D., University of Pennsylvania
  “Lipid Droplets and Bioactive Lipids in Alcoholic Liver Disease”

February 6  David J. Mangelsdorf, Ph.D., UT Southwestern Medical Center
  “The Diverse Metabolic Actions of FGF21”

February 13  John Nicholas Betley, Ph.D., University of Pennsylvania
  “Nutritive, Post-Ingestive Signals are the Primary Regulators of Hunger Circuits”

February 20  Joshua D. Rabinowitz, M.D., Ph.D., Princeton University
  “Metabolism Revisited”

February 27  Gary J. Schwartz, Ph.D., Albert Einstein College of Medicine - Student Invited Speaker
  “Feel the Burn: Feeding, Nutrient Sensing and Thermogenesis”

March 6  Paul S. MacLean, Ph.D., University of Colorado
  “Countering the Biological Drive to Regain Weight with Exercise”

March 13  Spring Symposium & Krof Lecture - Michael P. Czech, Ph.D., University of Massachusetts
  “Adipose Signaling Circuits Controlling Thermogenesis” - Rubenstein Auditorium

March 20  Jiandie Lin, Ph.D., University of Michigan
  “Endocrine Checkpoint for NASH Progression”

March 27  Anthony Ferrante, Jr., M.D., Ph.D., Columbia University
  “Leptin-Independent Weight Regulation”

April 3  Kimberly K. Trout, Ph.D., University of Pennsylvania
  “Effects of Increased Dietary Protein in Women with Gestational Diabetes Mellitus (GDM)”

April 10  John P. Thayfaut, Ph.D., University of Kansas
  “Hepatic Fitness and Susceptibility for Metabolic Disease”

April 17  Grant D. Barish, M.D., Northwestern University
  “Transcriptional Repressor Control of Healthful Obesity”

April 19  11th Annual J. Levi Hammond Lecture - Daniel J. Drucker, M.D., Mount Sinai Hospital
  “Mechanisms of Incretin Action - Where and How?” - Rubenstein Auditorium

April 24  Matthew E. Carter, Ph.D., Williams College
  “Interplay between Appetite-Inducing and Appetite-Suppressing Neuronal Populations”

May 1  Diva D. De Leon-Crutchoff, M.D., M.S.C.E., University of Pennsylvania
  “Novel Mechanisms of Disease in Hyperinsulinism”

Seminars are held on Tuesdays at 4:00 p.m., and are located in the Smilow Center for Translational Research, room 12-146, unless noted otherwise. For updates and more information, please visit our website: http://www.med.upenn.edu/idom or contact Lisa Henry at (215) 898-4365 or henryll@pennmedicine.upenn.edu
