

Institute for Diabetes, Obesity, & Metabolism

seminar series

Co-sponsored by the IDOM, DRC NIH DK 19525, and the Division of EDM

Fall 2011

- September 13 **Anton M. Bennett, Ph.D.**, Yale University
"Signaling by Protein Tyrosine Phosphatases in Metabolism"
- September 20 **Matthew R. Hayes, Ph.D.**, University of Pennsylvania
"Investigating the CNS GLP-1 System as a Target for Obesity Treatment"
- September 27 **Katja Lamia, Ph.D.**, The Scripps Research Institute
"Circadian Repressors Cry1 and Cry2 Modulate Glucocorticoid Signaling"
- October 4 **Jared Rutter, Ph.D.**, University of Utah
"Good and Bad Growth: The Virtues and Vices of Mitochondria and Metabolism"
- October 11 **Michael Ostap, Ph.D.**, University of Pennsylvania
"Microtubules to Myosins to GLUT4: Understanding the Molecules that Move Intracellular Membranes"
- October 18 **Jacob (Jed) E. Friedman, Ph.D.**, University of Colorado
"Developmental Origins of Fatty Liver: From Mouse to Monkey to Man"
- October 25 **Marc Reitman, M.D., Ph.D.**, NIDDK, National Institutes of Health
"BRS-3 Agonists for the Treatment of Obesity"
- November 1 **Jay D. Horton, M.D.**, UT Southwestern Medical Center
"Molecular Mediators of Hepatic Steatosis"
- November 8 **Gary Wu, M.D.**, University of Pennsylvania
"Diet, Enterotypes, and the Human Gut Microbiome"
- November 15 **Mitchell A. Lazar, M.D., Ph.D.**, University of Pennsylvania
"Up, Down, and All Around the Epigenomic Control of Metabolism"
- November 29 **Struan Grant, Ph.D.**, University of Pennsylvania
"Genomics of Diabetes and Obesity: A Rapidly Developing Story"
- December 6 **Kathryn M. Ferguson, Ph.D.**, University of Pennsylvania
"Extracellular Control of Receptor Tyrosine Kinases"
- December 13 **Mary Elizabeth Patti, M.D.**, Joslin Diabetes Center
"Molecular Mediators of Diabetes Risk: Insights from Human Studies"

*Seminars are held on Tuesdays at 4:00 p.m., and are located
in the Translational Research Center, room 12-146, unless noted otherwise.*
