

# Type 1 Diabetes Exchange Clinic-Based Registry Network

<b>Principal Investigator</b>	Michael Rickels, MD., MS
<b>Study Title:</b>	Type 1 Diabetes Exchange Clinic-Based Registry Network
<b>Purpose:</b>	The aim of this study sponsored by the Jaeb Center for Health Research in Tampa, Florida is to enroll 25, 000 or more individuals with T1D into a data repository.
<b>Brief Description</b>	This study collects core clinical and laboratory data on individuals with Type 1 diabetes (T1D) in order to address pertinent clinical issues, conduct exploratory/ hypothesis-generating analyses and categorize participants for future clinical studies.
<b>Eligibility</b>	Direct enrollment into the T1D Registry closed on July 1, 2013. Continued enrollment is only open to Type 1 diabetics upon completion of a JAEB ancillary study.
