September 16  
NANCY MANLEY, PhD  
Professor, Department of Genetics  
University of Georgia  
“Too Much Is Not Enough: Foxn1 Dosage and Function in Fetal and Adult Thymic Epithelial Cells”

September 23  
RONALD N. GERMAIN, MD, PhD  
Chief, Laboratory of Systems Biology and Lymphocyte Biology Section  
National Institute of Allergy and Infectious Diseases, NIH  
“Using Advanced Dynamic and Multiplex Static Imaging to Probe Innate and Adaptive Immunity In Vivo”

September 30  
MICHAEL S. DIAMOND, MD, PhD  
Professor, Departments of Medicine, Molecular Microbiology, Pathology & Immunology  
Head, Division of Infectious Diseases and Vaccine Development  
Center for Human Immunology & Immunotherapy Programs  
Washington University School of Medicine  
“Immunity to Viral Pathogens: Starting at the Lymph Node and Ending in the Brain”

October 7  
FOTINI GOUNARI, PhD  
Assistant Professor, Department of Medicine (Rheumatology)  
The University of Chicago  
“Wnt / -Catenin Signaling in T-Cells: Immunology and Immune-Pathology”

October 14  
GEORGE GEORGIOU, PhD  
Professor, Departments of Chemical Engineering and Biomedical Engineering  
The University of Texas at Austin  
“What’s in your Blood? Molecular Deconvolution of the Human Serological and B Cell Repertoires”

October 21  
HENRI JASPER, PhD  
Professor  
Buck Institute for Research on Aging  
“Control of Intestinal Homeostasis and Longevity: Lessons from the Fly”.

October 28  
JONATHAN YEWDELL, MD, PhD  
Cellular Biology and Viral Immunology Sections  
National Institute of Allergy and Infectious Diseases, NIH  
“Translating Immunology: It’s Not What You Think”

November 4  
ANDREA BOTTARO, PhD  
Professor of Biomedical Sciences  
Cooper Medical School of Rowan University  
“B Cells and Inflamed Lymph Nodes: The Power of Place”

November 11  
MARC JENKINS, PhD  
Distinguished McKnight University Professor and Director, Center for Immunology, University of Minnesota Medical School  
“Tracking the In Vivo Activation of CD4+ T Cells”

November 18  
CHANDRASHEKAR PASARE, PhD  
Louise W. Kahn Scholar in Biomedical Research  
Associate Professor  
University of Texas-Southwestern Medical Center  
“Host Defense Pathways - TLRs, Inflammasomes and Innate Immunity”

November 25 –  
No Seminar - Thanksgiving

December 2  
ALFRED SINGER, MD  
Head, Lymphocyte Development Section and Branch Chief, Experimental Immunology Branch, NIH  
Center for Cancer Research, National Cancer Institute  
“How the Thymus Determines T Cell Specificity and Function”

December 9  
ETHAN SHEVACH, MD  
Chief, Cellular Immunology Section, Laboratory of Immunology  
National Institute of Allergy and Infectious Diseases, NIH  
“Cell Intrinsic And Cell Extrinsic Control Of T Regulatory Cell Homeostasis”

**Refresments served at 3:30 p.m. • All Are Welcome**

If you wish to meet with any of the speakers contact:  
**Jennifer Wolfe • Phone: 215-898-2868 • Email: wolfejen@mail.med.upenn.edu**

Funding for the Immunology Colloquium comes from the following sources:

- The Department of Pathology and Laboratory Medicine
- The Department of Microbiology
- The Immunobiology of Normal and Neoplastic Lymphocytes NCI Training Grant
- The Immune System Development and Regulation Training Grant
