The Penn Center Guide to Bioethics

Vardit Ravitsky, PhD;
Autumn Fiester, PhD;
Arthur L. Caplan, PhD, Editors

The Center for Bioethics at the University of Pennsylvania is the internationally recognized leader in bioethical education and research. Its interdisciplinary faculty is drawn from the fields of medicine, law, nursing, education, philosophy, psychology, and religious studies. Arthur L. Caplan, the Center's founding director, is recognized as one of the most influential experts in bioethics. He has authored numerous books and articles, and served as the Chair of the Advisory Committee to the United Nations on human cloning.

The Penn Center's leading fellows, Autumn Fiester and Vardit Ravitsky, have combined their expertise with Dr. Caplan and over 80 other contributors to create *The Penn Center Guide to Bioethics*—the foremost authority on both traditional and cutting-edge bioethical issues. *The Penn Guide* navigates uncharted ethical terrain, undoubtedly shaping both academic and public discourse on the challenging controversies generated by new technologies, theories, and medical advances.

This volume represents the Penn Center's distinct, pioneering approach to bioethics, one that emphasizes *empirical* treatment of bioethical issues, and the integration of bioethical scholarship with practical application.

The Penn Guide is the definitive text for policy makers, health practitioners, researchers, and students. This book will also inform the general public, patients, and family members as they seek answers to the crucial bioethical issues of the day.

April 2009 • 856 pp • Hardback • 978-0-8261-1522-5 • \$65.00

Learn what the Penn Center has to say about:

- Neuroethics and brain imaging: Is my mind mine?
- Choosing future people: reproductive technologies and identity
- Eugenics and survival of the fittest in the modern world
- Bioethics and national security
- Vaccination, abortion, nanotechnology, organ transplantation, end-of-life issues, and more

Advanced Praise for *The Penn Guide*

“This is not the usual and increasingly redundant collection of essays. Rather it is a set of almost 70 essays, all well informed and many with attitude. Moreover the authors have succeeded in largely avoiding unnecessarily technical language without sacrificing the carefulness and clarity necessary in dealing with complex issues. In short, *The Penn Center Guide to Bioethics* is a lively collection of well informed and interesting essays on an unusually wide spectrum of topics in bioethics. Both academics and practitioners can benefit from the large set of issues addressed. I would hope to see it on the shelves of all those with an ongoing interest in bioethics.”

—**Harold T. Shapiro**, PhD, Princeton University
Former Chair, National Bioethics Advisory Board

About the Editors

Vardit Ravitsky, PhD, is a faculty member at the Department of Medical Ethics and a senior fellow at the Center for Bioethics at the University of Pennsylvania in Philadelphia. Previously, she was a post-doctoral fellow at the Department of Clinical Bioethics at the NIH and at the Social and Behavioral Research Branch (SBRB) of the National Human Genome Research Institute (NHGRI).

Autumn Fiester, PhD is the Director of Graduate Studies in the Department of Medical Ethics. She is also a Senior Fellow at the Center for Bioethics. She received her PhD in moral philosophy from the University of Pennsylvania and her AM in sociology from Harvard University. Her research interests include animals and bioethics, clinical professionalism, and moral theory.

Arthur L. Caplan is the Emmanuel and Robert Hart Professor of Bioethics, Chair of the Department of Medical Ethics, and the Director of the Center for Bioethics at the University of Pennsylvania in Philadelphia. Caplan is the recipient of many awards and honors including Person of the Year—2001 from *USA Today*, one of the fifty most influential people in American health care by *Modern Health Care*, and one of the 10 most influential people in America in biotechnology by the *National Journal*. He writes a regular column on bioethics for MSNBC.com and is a frequent guest and commentator on National Public Radio, CNN, MSNBC *The New York Times*, *Washington Post*, *Philadelphia Inquirer* and many other media outlets.
