Dear Medical Students:

The Division of Pediatric Orthopaedics and the Weinberg Family Cerebral Palsy Center at Columbia University Medical Center invites 3rd year medical students to apply for a funded one-year clinical research fellowship, starting in the summer of 2018.

This is an exciting opportunity for highly-motivated students that are interested in pursuing a career in Orthopaedic Surgery. This research position offers training in clinical research and hands-on collaboration with junior and senior faculty research mentors and orthopaedic surgeons. You will work closely with 3-4 other members of the research team on a variety of clinical research projects.

Our mission is to improve pediatric musculoskeletal health through evidence based clinical research. As a renowned research center in Pediatric Orthopaedics, we have an opportunity to spearhead many initiatives to make significant impacts in this field. Specific areas of interest of our team are:

- **Clinical Research**: developing new analytical methods for evaluating various surgical and non-surgical techniques and applying these methods to innovate approaches to patient care.
- **Patient-Based Outcome Research**: developing and assessing quality of life and caregiver burden outcome measures reflecting issues of importance to patients and their caregivers.
- **Quality and Safety Research**: investigating and developing methods in improving the quality and safety of the surgical experience for patients and family members, such as preventing surgical site infections post-spine surgery.

Every year we have medical students work in our research center between their 3rd and 4th years with great success. Our previous students have matched to their top choice residency programs. They have successfully matched to national top residency programs including Columbia University Medical Center, Harvard University, and Hospital for Special Surgery.

To apply for this position, please email your CV, one letter of recommendation, USMLE scores, unofficial transcript, and a brief statement of interest (limit to one paragraph) to Fay Callejo (fc2540@cumc.columbia.edu).

The deadline for priority consideration is Dec. 6, 2017. Interviews with the research team will be held on Saturday, Dec. 16 between 4pm-6pm. The second deadline for submission is Feb. 1, 2018 (interview dates and times for the Feb. deadline is TBD).

If you have any questions, please reach out to Fay Callejo (fc2540@cumc.columbia.edu).

Thank you,

Michael G. Vitale, MD, MPH
