## Clinical Monitoring and Site Verification

The GPSNJ-NETT Hub and Spokes will adhere to the policies set forth in the NETT SOP “Clinical Monitoring and Site Verification,” which can be found at:

[http://www.nett.umich.edu/nett/nett\\_standard\\_operating\\_procedures](http://www.nett.umich.edu/nett/nett_standard_operating_procedures).

In accordance with NETT policy, the GPSNJ-NETT Hub will submit a site verification plan to the NETT Clinical Coordinating Center for approval. This verification plan will be determined and agreed upon by the GPSNJ-NETT Hub and participating Spoke before the start of a NETT trial. Included in the plan will be the option for the GPSNJ-NETT Hub to increase the frequency of site verification as needed to ensure thorough and accurate data entry and record-keeping within GPSNJ-NETT. In addition to on-site verification, the GPSNJ-NETT Project Manager or designee will also perform verification via WebDCU™ as needed.
