

NIDDK P30 Center for Molecular Studies in Digestive and Liver Diseases Research Seminar

James D. Lewis, MD, MSCE

Professor of Medicine and Epidemiology
Chief of Gastroenterology Penn Presbyterian Medical Center
Senior Scholar, Center for Clinical Epidemiology and Biostatistics
Perelman School of Medicine at the University of Pennsylvania

"The Intersection of Food, Microbiome and Metabolites in Health and Inflammatory Bowel Diseases."

Thursday, December 22, 2022
12:00 – 1:00 PM EST
901 Biomedical Research Building

For more than 25 years, Dr. Lewis has been actively involved in clinical research related to inflammatory bowel diseases and other gastrointestinal diseases with goal of improving patients' outcomes by optimizing the use of medical therapies, diagnostic tests, and nutrition. His work has been funded by the NIH, AHRQ, PCORI, and numerous foundations and corporate sponsors. His research has employed a wide range of methods, including clinical trials, controlled feeding studies, observational studies using administrative data, prospective cohort studies, and decision modeling.

The meeting will start promptly at 12:00 pm. Please be on time.
