

## NIDDK P30 Center for Molecular Studies in Digestive and Liver Diseases Research Seminar

Michael Abt, Ph.D.
Assistant Professor of Microbiology,
University of Pennsylvania Perelman School of Medicine

## "Therapeutic Opportunities to Improve Fecal Microbiome Transplantation"

Thursday, October 3rd, 2024 12:00PM - 1:00 PM EST Lunch is provided, all are invited.

901 Biomedical Research Building or <a href="https://pennmedicine.zoom.us/j/7278643759?omn=98667593501">https://pennmedicine.zoom.us/j/7278643759?omn=98667593501</a>

Dr. Abt will discuss how patients infected with Clostridioides difficile experience a high rate of disease recurrence. Reestablishing a diverse microbiome can prevent recurrence, however, the success of these microbiome-based therapies is dependent on host immunoregulatory mechanisms interacting with the microbiome.
