Hot Topic COVID-19 Panel: Unpacking Vaccination Hesitancy in Communities of Color
January 12th 2021 3–4PM Bluejeans

Please join the Multicultural Professionals Network and Alliance of Minority Physicians/ Multicultural Physicians’ Alliance as we cohost an intimate conversation with a panel including Dr. Coralee Del Valle Mojica and Dr. Paul Offit from Infectious Disease and Dr. Nicole Washington from General Pediatrics to discuss the COVID-19 vaccines. The time will include the latest information in regards to the vaccine and unpack possible mistrust given the known history of medical mistreatment of Black and Brown communities and ongoing disparities highlighted by the current pandemic. The goal is to inform and empower attendees in their vaccine decision making.

This event will be capped at 130 participants; please arrive promptly to secure a place. If you are unable to join, the event will be recorded and shared afterward.

We encourage all participants to turn on their video to enhance our connection, understanding and sense of safety.
