

Penn Medicine Summer Programs

ELEVATE YOUR SUMMER RESEARCH EXPERIENCE AT PENN!

Undergraduate Research Opportunities at Penn:

Summer Undergraduate Mentored Research Program (SUMR)

- Internship introduces talented undergraduate students, with a demonstrated interest in health services, population health, and clinical epidemiology

Summer Undergraduate Internship Program (SUIP)

- Intense research experience for students in graduate study in biomedicine and biomedical sciences

Undergraduate Student Scholars Program (USSP)

- Organized program of summer lectures and presentations combined with basic research experience in the laboratory of an expert investigator

Undergraduate Translational Research Immersion Program (TRIP)

- Provides students at participating institutions experiential learning opportunities in the field of clinical and translational research (CTR). Co-sponsored by NIH Clinical and Translational Sciences Award (CTSA)

Summer Undergraduate Research in Engineering (SURE)

- Opportunities in engineering and the physical sciences including genomics and biotechnology

Injury Science Research Experiences for Undergraduates (REU)

- Provides undergraduate students with mentorship and hands-on research experience in the fields of engineering, behavioral science, education, population science, and statistics

CHOP Research Institute Summer Scholars Program (CRISSP)

- Provide students with theoretical knowledge, practical training in academic research, and critical exposure to pediatric-focused career trajectories under the direct mentorship of CHOP faculty

Center for Engineering MechnoBiology (CEMB)

- Interdisciplinary opportunity to develop research skills in physical science, biological science and engineering

Other Penn Programs for college graduates:

- Post-Bac Research Education Program (PennPREP)
- Liberal and Professional Studies Post-Bac Pre-Health Programs
