TRAnslational NeuroScience
Computational EvaluatiON of a
D1r partial agonist for Schizophrenia

Have you been diagnosed with Schizophrenia?

Help us learn more about thinking and memory in Schizophrenia

You may be eligible to participate in a *no-cost* and *confidential* study that looks at the impact on how the brain supports memory and thinking in people with early episode Schizophrenia. To qualify, you must be:

- 18 to 45 years old
- Recently diagnosed with Schizophrenia, Schizoaffective, or Schizophreniform disorder
- Willing to participate in a potential treatment study using a novel experimental medicine to improve cognition and thinking

Compensation up to \$1,455

To learn more or to see if you are eligible to participate, call (610) 675-6661 or email zachary.heffernan@pennmedicine.upenn.edu

IRB #842909
