

Authorization to Participate in a Certificate Program*

All students in BGS are expected to adhere to the requirements and recommendations of their graduate groups with regard to course selection, lab rotations, and other training activities. A student who wishes to participate in a certificate program must, in all instances and through this document, obtain authorization. '[Policies Governing Participation of BGS Students in Certificate Programs](#)' provides additional information. Enrollment in the certificate program is by separate agreement between that program and the student.

*This form is to be used by PhD students. Authorization for MD/PhD students is obtained separately through the Office of Combined Degree and Physician Scholars.

Student name:

Graduate group:

- Biochemistry & Molecular Biophysics
- Cell and Molecular Biology:
 - Cancer Biology
 - Cell Biology, Physiology, and Metabolism
 - Developmental, Stem Cell, and Regenerative Biology
 - Gene Therapy and Vaccines
 - Genetics and Epigenetics
 - Microbiology, Virology, and Parasitology
- Epidemiology and Biostatistics
 - Biostatistics
 - Epidemiology
- Genomics and Computational Biology
- Immunology
- Neuroscience
- Pharmacology

Year training:

- 1st year
- 2nd year
- 3rd year
- 4th year
- 5th year
- 6th year

Name of certificate program:

Link to certificate program's website:

Requirements of the certificate program (e.g. courses, seminar attendance, and projects):

Reason(s) for interest in the certificate program:

Describe how the certificate program can be incorporated into your current schedule:

I have read the document 'Policies Governing Participation of BGS Students in Certificate Programs'.

Signatures:

Student

Date

Thesis advisor (if in thesis status, chair of advisory committee if not)

Date

Chair of Graduate Subprogram (if in CAMB or GGEB)

Date

Chair of Graduate Group

Date

BGS Director

Date

Form to be retained by the BGS office with a copy to the graduate group coordinator.
