CAMB 691. Advanced Topics in Cell Biology and Physiology I.
Course Organizers: Mickey Marks, Ben Prosser, and Erika Holzbaur (contact: Mickey Marks)
Prerequisite(s): BIOM 600 or a similar survey course in cell biology. Permission required prior to registration for all non-BGS students.

An in-depth consideration of key topics in cell biology and physiology. This course will focus on key issues at the forefront of research in the areas of (1) ion channels, (2) intracellular organelles and membrane transport, (3) cytoskeletal dynamics and cell division, and (4) tissue and molecular biomechanics. The course format pairs faculty presentations with student-led discussion sessions highlighting important papers from the primary literature. Students will be evaluated on their presentations and participation in class discussions.

Course Overview

CAMB 691 is a seminar course for first and second year graduate students focusing on the in-depth consideration of key topics in cell biology and physiology. We will emphasize current questions in the field and how these questions can be addressed with new experimental approaches. The course will be organized around four major themes: (1) ion channels, (2) organelles and intracellular membrane transport, (3) cytoskeletal dynamics and cell division, and (4) tissue and molecular biomechanics. CAMB 691 will meet twice a week. New topics will be generally introduced in lectures presented by the faculty during the Monday sessions, and then will be discussed in depth in student-led presentations of relevant papers during the Friday sessions. Students will be evaluated based on their presentations and participation in class discussions.

Class will meet Mondays and Fridays from 10:30 AM to 12:00 PM in BRB 901. An organizational meeting will be held on Friday January 19th at 10:30 AM in BRB 901.

Course Organizers:

Michael Marks
Dept. of Pathology & Laboratory Medicine, CHOP and Dept. of Physiology
816G Abramson Research Center
(215) 590-3664
marksm@pennmedicine.upenn.edu

Benjamin Prosser
Dept. of Physiology
726 Clinical Research Building
(215) 746-1488
bpros@pennmedicine.upenn.edu

Erika Holzbaur
Dept. of Physiology
630 Clinical Research Building
(215) 573-3257
holzbaur@pennmedicine.upenn.edu
Participating faculty:

Carol Deutsch - cjd@pennmedicine.upenn.edu
Natali Chanaday - Natali.Chanaday@Pennmedicine.upenn.edu
Sandra Maday - smaday@pennmedicine.upenn.edu
Erika Holzbaur - holzbaur@pennmedicine.upenn.edu
Michael Marks - marksm@pennmedicine.upenn.edu
Melike Lakadamyali - melikel@pennmedicine.upenn.edu
Tanya Svitkina - svitkina@sas.upenn.edu
Mathew Good - mattrgood@pennmedicine.upenn.edu
Ekaterina Grishchuk - gekate@pennmedicine.upenn.edu
Michael Lampson - lampson@sas.upenn.edu
Benjamin Prosser - bpros@pennmedicine.upenn.edu
Michael Ostap - ostap@pennmedicine.upenn.edu
Guilherme Nader - naderg@chop.edu
Joel Boerckel - boerckel@pennmedicine.upenn.edu
