## **GENERAL ANNOUNCEMENTS**

### **Research Resumption – Survey**

*Please see the message and survey below from Dawn Bonnell, Vice Provost for Research:*

After much planning and preparation the University initiated Phase I of Research Resumption and began to increase activities on campus earlier this month. The framework for ensuring a safe environment has been implemented in the form of social distancing requirements, cleaning protocols, population density management and symptom screening. Information and guidance resources can be found at this website: <https://research.upenn.edu/resources/resumption/>

Your input will help us maintain conditions that continue to support vigorous research at Penn. Please help us by completing this short survey (it should take 2 mins).

### **Penn Medicine BioBank Logo Design Contest**

The Penn Medicine BioBank is in search of a logo and is holding a crowdsourcing contest to find one!

Submissions are open to all Penn community members and the winning design will be used as the official logo for the PMBB's website, communications, social media, print items and more.

### **Submission Guidelines**

The most important requirement is that the design should represent the unique activities conducted by the Penn Medicine BioBank (PMBB).

PMBB is an institutional resource that recruits and consents participants, obtains and stores biospecimens, generates phenomic and genomic data, and enhances discovery and translational research. You can learn more about the [Penn Medicine BioBank](#) on its website.

The design should be easily reproducible and scalable for large and small formatting. Logos cannot contain copyrighted material.

### **How to Enter**

Please submit all designs in .jpeg .psd or .pdf format to Kimberly Runyan at [krunyan@pennmedicine.upenn.edu](mailto:krunyan@pennmedicine.upenn.edu)

### **Prize**

Contest winner will receive \$100 (via workday)

### **Deadline**

July 3, 2020

## **UPCOMING EVENTS**

### **The Race to Understand COVID-19**

**Tuesday, June 23, 12:00 - 1:00 PM (ET)**

What makes this virus different from other pathogens? What is it like working with infectious diseases in a highly secure laboratory? What are the major scientific obstacles to treatments and vaccines? How can scientists and policymakers work better together?
