## **GENERAL ANNOUNCEMENTS**

### **COVID-19 Testing and Vaccinations**

**Testing.** Graduate students who live on campus or come to campus each week must be tested. You may enroll in [Penn Cares Testing](#) or in [COVID SAFE](#) – but you should not be enrolled in both simultaneously. If you are working in a lab in CHOP, Wistar, or another affiliate and are NOT entering Penn/PSOM buildings, you should follow those entities' testing protocols and do NOT need to enroll in University testing. You may receive automated emails about testing even though you are not enrolled in Penn Cares Testing; you may ignore these emails.

***Red PennOpen Pass?*** If you signed up for Penn Cares testing but are not scheduled for a weekly test, you may get a red PennOpen pass. You will need to schedule your weekly test in order to be given a green pass. If you are no longer coming to campus weekly or have switched to COVID SAFE, please email Judy Jackson, [jajackso@pennmedicine.upenn.edu](mailto:jajackso@pennmedicine.upenn.edu) to arrange to be un-enrolled from Penn Cares. Please refer to Perelman School of Medicine email of 1/25/21 4:24pm for more details about testing.

**Vaccinations.** Penn and the PSOM have begun rolling out vaccinations. Please refer to Penn's [Vaccinations](#) site for more information.

### **Help Improve Penn's Anti-Violence Resources**

**A team of researchers at Penn's Center for Public Health Initiatives is conducting research to learn about Penn students' awareness and perceptions of intimate partner violence (IPV) resources.** IPV is a common experience among students on college campuses, and includes physical, sexual, and emotional violence, as well as stalking.

The Center for Public Health Initiatives at Penn is conducting online focus group discussions to learn about students' knowledge of and ideas for campus resources to address intimate partner violence (IPV). All Penn students age 18 or over are welcome to participate, regardless of gender, year, experience with IPV, etc. Discussions will last between 60-90 minutes and be conducted via Zoom. Participants will receive a \$20 electronic gift card to Amazon for their time. To express interest or learn more, contact Alicia Jen at [campusIPV@penmedicine.upenn.edu](mailto:campusIPV@penmedicine.upenn.edu) or 267-279-9575.

## Counseling and Wellness

[Counseling and Psychological Services](#) has a variety of virtual options and some in-person options. Call 215-898-7021 anytime (24/7) to make an appointment or talk with a licensed counselor.

On campus appointments are available 9am-5pm Monday-Friday. Virtual appointments are available Mon-Thurs, 9am-6pm, Fri, 9am-5pm, and Saturday, 10am-2pm. Press 2 to make an in-person or virtual appointment.

You may also use [Let's Talk](#) virtual hours: <https://caps.wellness.upenn.edu/ltplohours/>  
Use 215-898-7021, press 2, to schedule a Let's Talk session.

Dr. Tiffany Brown is the embedded CAPS counselor for BGS. You may schedule appointments with her directly [[nicobr@upenn.edu](mailto:nicobr@upenn.edu)] or by calling 215-898-7021 (press 2). You may also arrange to work with other CAPS counselors by calling the main CAPS number.

For peer support networking, please feel free to reach out to one of the BGS student volunteers of [Peer Support Network](#).

# UPCOMING EVENTS

## Be The Match and Save a Life: Marrow Transplant Talk and Donor Drive

Monday, April 19 from 1:00-2:00 p.m. (<https://penmedicine.zoom.us/j/98893655109>)

Please RSVP (<https://forms.gle/jtBViWvyMqWk1Bzx9>)

The PSOM Asian Pacific American Medical Student Association, in partnership with the Student National Medical Association, Latino Medical Student Association, South Asian Medical Student Association, and Oncology Interest Group, are **excited to host a talk on the ever-present need for**

**expanding the national marrow registry and offer you the chance to join and potentially save a life.** Speakers from Be The Match, a non-profit organization that manages the world's largest bone marrow registry, will share information about their own journeys as donors, explain how you can do the same, and answer any questions you may have. While there will be a focus on increasing diversity in the registry and discussion of disparities associated with race and ethnicity\*, potential donors from all backgrounds are needed and welcome.

Click the following link to read the inspiring story of how Christopher Magoon, PSOM Class of 2019, joined the registry and saved a stranger's life (<https://www.yahoo.com/gma/blogs/abc-blogs/cancer-survivor-meets-her-bone-marrow-donor-first-121314673--abc-news-health.html>).

\*Note: We stand against the use of race-based medicine and recognize that the ethnic labels used to categorize donors are imprecise; however, data show that those who identify as part of any minority group are far less likely to find a marrow match. This exacerbates existing health disparities and indicates a general need for greater diversity, of all different backgrounds and origins, in the registry.

### **Neuroscience Public Lecture**

**Date & Time: Tuesday, April 20th, 6:00pm EST**

Penn Neuroscience graduate students are hosting a public lecture entitled "**Neuroinflammation: The Brain's Defense Mechanism**" which will feature 15-minute TED style talks from three Philadelphia-area neuroscience faculty members:

- Dr. Chris Bennett – University of Pennsylvania
- Dr. Jennifer Orthmann-Murphy – University of Pennsylvania
- Dr. Elena Blanco-Suárez – Jefferson University

Check-in and a fun neuroscience demonstration will begin at 6pm. Please see the [attached flyer](#) for more details.

**Please register for the event here:** <https://www.crowdcast.io/e/neurolecture/register>

### **Making Black Lives Matter in Philadelphia: Perspectives from the Health Sciences**

**April 22, 3 – 5 PM**

On Thursday, April 22 from 3-5pm, we invite you to virtually attend [Making Black Lives Matter in Philadelphia: Perspectives from the Health Sciences](#), a keynote presentation and roundtable discussion hosted by the Penn Libraries.

In a keynote address, [Dr. Eugenia South](#) will explore how these crises are linked through the common root cause of structural racism. She will then use examples from her own work to describe how place-based, neighborhood-centered solutions can address both gun violence and Covid-19 vaccine distribution inequities.

[Find more information and register online.](#) This program is free and open to the public.

## **Reaching the Peak: A Science & Technology Career Summit** [Learn more and register](#)

Registration is now open for *Reaching the Peak: A Science & Technology Career Summit*, Research!America's summit for early career researchers, on **June 30, 2021 from 11-6 p.m. ET.**

During this one-day virtual event, early career researchers will have the opportunity to explore an array of career paths, network with fellow researchers, participate in professional development workshops, and engage in meaningful discussions around issues critical to the success of the R&D ecosystem.

Sample workshops and topics the Summit will explore:

- Resume and CV Development
  - Effective Science Communication
  - Science Policy and Advocacy
  - Fostering Successful Mentorships
- 

## **Sign up to provide a critical mentored virtual research experience for URMs this summer** **Deadline: May 1st, 11:59pm**

Future applicants with under-represented identities in science and medicine (URiM) are experiencing significant setbacks in applying to combined degree programs this year and beyond. This problem has been significantly exacerbated by the ongoing COVID-19 pandemic. The **Virtual Summer Research Program (VSRP) through the American Physician Scientists Association (APSA)**, a program led by the Justice, Equity, Diversity & Inclusion committee, is hoping to bridge this gap, and **we need your help!**

In 2020 we paired 150+ mentors, principal investigators and graduate students with premedical and pre-graduate trainees for mentored research experiences. In 2021, we are hoping to pair 200 URiMs (we anticipate 600+ will apply). Ultimately, we hope to increase diversity by expanding access to dual

degree programs to those whose previous research experience was limited by socio-economic factors—and for this, **we are asking graduate students, post-docs, and principal investigators in any lab or research group to sign up as mentors for this virtual research experience from June 14th to August 6th 2021.** Visit <https://www.physicianscientists.org/page/VSRP-2021> to learn more and sign up (note that your PI *must* sign-off although non-PIs can certainly mentor!). The deadline is **May 1st, 11:59pm.**

If we want the next generation of scientists to be diverse, we must participate in uplifting URiM applicants that are facing compounded roadblocks due to COVID-19 and ongoing racial and economic disparities that plague our nation. **If you are asking yourself, what can I do to increase diversity in biomedical research? Well, this!**
