GENERAL ANNOUNCEMENTS

Upcoming Grant & Fellowship Opportunities

Upcoming Grant & Fellowships Events

PhD Grant Programs Information Session
Wednesday, September 11, 12:00-1:30 PM
ARCH Building, 3601 Locust Walk, Fireside Lounge (2nd Floor)
The University administers four grant programs for full time PhD students to help offset the cost of childcare and family expenses, and health insurance for dependents, dental insurance, and health insurance for students beyond funding years. Learn more about these grants and speak with representatives of the Office of the Provost, Family Center, and Graduate Center,
who administer the programs. Lunch will be served. Please register in advance at [www.gsc.upenn.edu/events](http://www.gsc.upenn.edu/events)

**Coffee & Conversation with CURF**
Friday, September 13, 10:00 AM - 11:30 AM  
Arch Building, Fireside Lounge (2nd Floor)  
Don’t let the name mislead you — Penn’s Center for Undergraduate Research and Fellowships, or CURF, works with graduate & professional students applying for nationally competitive fellowships!  
CURF invites students in all Penn’s graduate schools to join us for coffee and conversation about applying for graduate fellowships at Penn. CURF will hold an open forum, complete with coffee, bagels, and assorted spreads. We’ll briefly discuss several fellowships that are particularly relevant to grad students (and that require institutional support). We’ll then open the conversation to invite questions about fellowship opportunities and the ways CURF and other campus resources can help you identify and apply for these opportunities. Please register at [www.gsc.upenn.edu/events](http://www.gsc.upenn.edu/events)

**Highlighted Opportunities**
The following opportunities are currently accepting applications.

- **Lindau Nobel Laureate Meetings**  
  Deadline for 70th Lindau Nobel Laureate Interdisciplinary Meeting: September 11  
  Deadline for the 7th Lindau Meeting on Economic Sciences: October 14  
  Once every year, around 30-40 Nobel Laureates convene in Lindau to meet the next generation of leading scientists: 600 undergraduates, PhD students, and post-doc researchers from all over the world. Participants need to be below 35 years of age, should have an excellent academic track record and at least one letter of recommendation, need to speak English fluently, and may not have participated before.

- **Google PhD Fellowship**  
  **University Nomination Deadline: November 1**  
  Recognizes outstanding graduate students conducting research in computer science and related fields. Open to current PhD students who will have completed two years and have at least two years remaining in their program in Fall 2020.

**Reminder: ORCID Requirement – BGS Needs Your ORCID**

An ORCID provides you with a unique identifier that links all your research output (Publications, grants, professional activities), and it is becoming a requirement for manuscript and grant submissions. By making your ORCID public, the graduate program (BGS) can easily track the successes of our students. That makes us better advocates for you to the University Administration, to Granting Agencies, and to our Communities. Learn more and access the form to submit your ORCID to BGS [here](#).
ITMAT Education – TL1/T32 Slots Available for Certificate in Translational, Regulatory, or Entrepreneurial Science

Deadline: October 25, 2019

ITMAT Education’s Certificate in Translational Science, Entrepreneurial Science, and Regulatory Science provides PhD students with training to build upon their scientific expertise to understand approaches to translate early discoveries and preclinical investigations into therapeutics. This program is designed for PhD students who wish to pursue careers in academia, the pharmaceutical & biotechnology industry, consulting and legal industries, and federal agencies.

The certificate includes a one-year engagement in a research project (a new research project or as an additional aim to research currently being conducted) and four courses. TL1 appointees will receive one year of funding including a stipend per NIH policy and tuition funding to cover the cost of the certificate.

Applications for the Penn Wharton Innovation Fund now live

The Penn Wharton Innovation Fund (PWIF) exists to fund creative and meaningfully innovative ventures from the Penn student community, and, like all Penn Wharton Entrepreneurship programs, is intended to give students an opportunity to learn about entrepreneurship, through their successes and mistakes. Alberto Vitale WG'59, who endowed the Penn Wharton Innovation Fund, hopes that it will be “a catalyst to stimulate innovation at the School and to surface the brainpower of its
students." All funding decisions are made by our Investment Team, which is comprised of current students from across the University of Pennsylvania. We are currently recruiting for new members for our Investment Team. The PWIF Investment Team is responsible for reviewing applications for funding every month from October 2019 through April 2020. This will require about 10 hours of reviewing applications on our online system during each month’s review period. The Investment Team will hold twice-monthly 2-hour meetings where we have lively discussion, dinner, and make our funding decisions (10 application review meetings, and 1 introductory meeting in September).

**Deadline to apply:** September 13th  
**PWIF Website:** [https://entrepreneurship.wharton.upenn.edu/innovation-fund/](https://entrepreneurship.wharton.upenn.edu/innovation-fund/)
