

**ANT North America is excited to host the 2nd US edition of the 34th annual ANT Neurometing on April 9-10, at the Franklin Institute in Philadelphia**

**This year, we're back with a dynamic lineup of speakers, innovative research presentations, and unparalleled networking opportunities, including talks by:**

- Marlene Behrmann, PhD | Professor of Ophthalmology, University of Pittsburgh (keynote)
- Bin He, PhD | Trustee Professor of Biomedical Engineering, Carnegie Mellon University (keynote)
- Pierfilippo De Sanctis, PhD | Associate Professor, Albert Einstein College of Medicine
- Nathalie Maitre, MD, PhD | Professor of Pediatrics in Neonatology, Emory School of Medicine
- Heather L. Green, PhD, CCC-SLP | Research Scientist, Children's Hospital of Philadelphia
- Hasan Ayaz, PhD | Associate Professor, Drexel University
- John Medaglia, PhD | Associate Professor, Drexel University
- Russell Toll, PhD | Assistant Professor, University of Texas Southwestern Medical Center
- Roy H. Hamilton, MD, MS | Professor of Neurology, University of Pennsylvania
- Nicholas L. Balderston, PhD | Assistant Professor, University of Pennsylvania
- Desmond J. Oathes, PhD | Associate Professor, University of Pennsylvania

**Day One will focus on research applications of EEG, and Day Two will feature talks on neuromodulation. Each day includes both presentations by leaders in the field and hands-on workshops, giving participants an opportunity to use the latest technology from ANT Neuro.**

**Be part of this unique event where science meets innovation!**
