Panel:
Saveri Bhattacharya, DO | Hematology/Oncology
Et-tsu Chen, MD | Radiation Oncology
Amy S Clark, MD, MSCE | Hematology/Oncology
Oluwadamilola "Lola" Fayanju, MD, MA, MPH | Surgical Oncology
Priya P. Gor, MD, MSCE | Hematology/Oncology
Igor Makhlin, MD | Hematology/Oncology
Payal D Shah, MD | Hematology/Oncology

8:30 pm Conference concludes

CONFERENCE FACULTY

Conference Chairs

Rachel C Jankowitz, MD
Associate Professor, Medicine (Hematology/Oncology)
Director, Rena Rowan Breast Center
Rena Rowan Breast Center, Perelman Center
Perelman School of Medicine at the University of Pennsylvania / Penn Medicine
Philadelphia, PA, USA

Angela M DeMichele, MD, MSCE
Alan and Jill Miller Professor in Breast Cancer Excellence
Co-Leader, Breast Cancer Research Program
Director, Breast Cancer Clinical Trials Unit
Rena Rowan Breast Center, Perelman Center
Perelman School of Medicine at the University of Pennsylvania / Penn Medicine
Philadelphia, PA, USA

Speakers

Saveri Bhattacharya, DO
Assistant Professor, Medicine
Sidney Kimmel Medical College / Jefferson Health
Philadelphia, PA, USA

Et-tsu Chen, MD
Clinical Associate, Radiation Oncology
Radiation Oncology Medical Director, Penn Medicine, Valley Forge
Perelman School of Medicine at the University of Pennsylvania / Penn Medicine
OVERVIEW
This activity is designed to efficiently discuss recent clinical advances in breast cancer oncology that have emerged from presentations at recent international meetings including ASCO and SABCS. The activity format will provide opportunity for interaction between Penn Medicine faculty and meeting attendees with the aim of implementing new standards of patient care. Participants will gain up-to-date, practical information with immediate clinical application.
LEARNING OBJECTIVES
At the completion of this course, participants should be able to:

• Identify clinical trial evidence that allows for the personalization of care in the management of early and advanced forms of breast cancer according to breast cancer phenotype
• Implement current and evolving roles for prognostic and predictive biomarkers to stratify risk and inform clinical decision making in the management of breast cancer
• List recent clinical trial results concerning the use of novel breast cancer treatment strategies

WHO SHOULD ATTEND
This activity has been designed for medical, surgical and radiation oncologists, gynecologists, radiologists, primary care physicians, advanced practice clinicians, and other health care professionals involved in the treatment of patients with breast cancer.

Accreditation
In support of improving patient care, Penn Medicine is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Designation of Credit
PHYSICIANS: TBA
NURSES: TBA
PHYSICIAN ASSISTANTS: TBA

Disclosures
Staff in the Office of Continuing Medical and Interprofessional Education at Penn Medicine (Belinda Rose, CHCP and Vaughn Wurst) and Planning Committee Members (Cynthia Griffo, MS, RN and Barbara Lopez) have reported that they have no relevant financial relationships with any commercial interest related to the content of this educational activity.
