**Purpose**  As psychiatric disorders are often associated with sleep disturbances, the PSQI was designed to evaluate overall sleep quality in these clinical populations. Each of the questionnaire’s 19 self-reported items belongs to one of seven subcategories: subjective sleep quality, sleep latency, sleep duration, habitual sleep efficiency, sleep disturbances, use of sleeping medication, and daytime dysfunction. Five additional questions rated by the respondent’s roommate or bed partner are included for clinical purposes and are not scored.

**Population for Testing**  The developers’ initial psychometric analysis of the instrument was conducted with individuals aged 24–83 years [1]. The questionnaire has been validated with a variety of clinical populations, including: patients with major depressive disorder, disorders of initiating and maintaining sleep, disorders of excessive somnolence, cancer [2], and fibromyalgia [3].

**Administration**  A self-report, pencil-and-paper measure, the instrument should require between 5 and 10 min for completion.

**Reliability and Validity**  Though there have been a variety of studies assessing the psychometric properties of the scale, the developers’ initial evaluation [1] found an internal reliability of $\alpha=.83$, a test–retest reliability of .85 for the global scale, a sensitivity of 89.6%, and a specificity of 86.5%.

**Obtaining a Copy**  A copy can be found in the original article published by developers [1].

**Scoring**  A detailed guide to scoring is included in the original published article [1]. The questionnaire consists of a combination of Likert-type and open-ended questions (later converted to scaled scores using provided guidelines). Respondents are asked to indicate how frequently they have experienced certain sleep difficulties over the past month and to rate their overall sleep quality. Scores for each question range from 0 to 3, with higher scores indicating more acute sleep disturbances. Developers have suggested a cut-off score of 5 for the global scale as it correctly identified 88.5% of the patient group in their validation study.
PITTSBURGH SLEEP QUALITY INDEX

INSTRUCTIONS:
The following questions relate to your usual sleep habits during the past month only. Your answers should indicate the most accurate reply for the majority of days and nights in the past month. Please answer all questions.

1. During the past month, what time have you usually gone to bed at night?  
   BED TIME
   
2. During the past month, how long (in minutes) has it usually taken you to fall asleep each night?  
   NUMBER OF MINUTES
   
3. During the past month, what time have you usually gotten up in the morning?  
   GETTING UP TIME
   
4. During the past month, how many hours of actual sleep did you get at night? (This may be different than the number of hours you spent in bed.)  
   HOURS OF SLEEP PER NIGHT

For each of the remaining questions, check the one best response. Please answer all questions.

5. During the past month, how often have you had trouble sleeping because you . . .
   a) Cannot get to sleep within 30 minutes
      Not during the past month ______ once a week ______ a week ______ Three or more times a week ______
   b) Wake up in the middle of the night or early morning
      Not during the past month ______ once a week ______ a week ______ Three or more times a week ______
   c) Have to get up to use the bathroom
      Not during the past month ______ once a week ______ a week ______ Three or more times a week ______
d) Cannot breathe comfortably
   
   Not during the past month____ Less than once a week____ Once or twice a week____ Three or more times a week____

e) Cough or snore loudly
   
   Not during the past month____ Less than once a week____ Once or twice a week____ Three or more times a week____

f) Feel too cold
   
   Not during the past month____ Less than once a week____ Once or twice a week____ Three or more times a week____

g) Feel too hot
   
   Not during the past month____ Less than once a week____ Once or twice a week____ Three or more times a week____

h) Had bad dreams
   
   Not during the past month____ Less than once a week____ Once or twice a week____ Three or more times a week____

i) Have pain
   
   Not during the past month____ Less than once a week____ Once or twice a week____ Three or more times a week____

j) Other reason(s), please describe__________________________________________________________

   How often during the past month have you had trouble sleeping because of this?
   
   Not during the past month____ Less than once a week____ Once or twice a week____ Three or more times a week____

6. During the past month, how would you rate your sleep quality overall?
   
   Very good ____________
   
   Fairly good ____________
   
   Fairly bad ____________
   
   Very bad ____________
7. During the past month, how often have you taken medicine to help you sleep (prescribed or "over the counter")?

<table>
<thead>
<tr>
<th>Frequency</th>
<th>Not during the past month</th>
<th>Less than once a week</th>
<th>Once or twice a week</th>
<th>Three or more times a week</th>
</tr>
</thead>
</table>

8. During the past month, how often have you had trouble staying awake while driving, eating meals, or engaging in social activity?

<table>
<thead>
<tr>
<th>Frequency</th>
<th>Not during the past month</th>
<th>Less than once a week</th>
<th>Once or twice a week</th>
<th>Three or more times a week</th>
</tr>
</thead>
</table>

9. During the past month, how much of a problem has it been for you to keep up enough enthusiasm to get things done?

- No problem at all
- Only a very slight problem
- Somewhat of a problem
- A very big problem

10. Do you have a bed partner or room mate?

- No bed partner or room mate
- Partner/room mate in other room
- Partner in same room, but not same bed
- Partner in same bed

If you have a room mate or bed partner, ask him/her how often in the past month you have had . . .

a) Loud snoring

<table>
<thead>
<tr>
<th>Frequency</th>
<th>Not during the past month</th>
<th>Less than once a week</th>
<th>Once or twice a week</th>
<th>Three or more times a week</th>
</tr>
</thead>
</table>

b) Long pauses between breaths while asleep

<table>
<thead>
<tr>
<th>Frequency</th>
<th>Not during the past month</th>
<th>Less than once a week</th>
<th>Once or twice a week</th>
<th>Three or more times a week</th>
</tr>
</thead>
</table>

c) Legs twitching or jerking while you sleep

<table>
<thead>
<tr>
<th>Frequency</th>
<th>Not during the past month</th>
<th>Less than once a week</th>
<th>Once or twice a week</th>
<th>Three or more times a week</th>
</tr>
</thead>
</table>
d) Episodes of disorientation or confusion during sleep

<table>
<thead>
<tr>
<th></th>
<th>Not during the past month</th>
<th>Less than once a week</th>
<th>Once or twice a week</th>
<th>Three or more times a week</th>
</tr>
</thead>
</table>

e) Other restlessness while you sleep; please describe

<table>
<thead>
<tr>
<th></th>
<th>Not during the past month</th>
<th>Less than once a week</th>
<th>Once or twice a week</th>
<th>Three or more times a week</th>
</tr>
</thead>
</table>
