## What is CAMS?

CAMS stands for “Central Account Management System.” CAMS is PSOM’s account management system which allows Business Administrators to manage access to grant and non-grant Penn 26-digit account numbers.

## How can I login to CAMS?

You can login to CAMS with your PennKey by visiting: <http://www.med.upenn.edu/apps/cams/users/dashboard>

## How does CAMS interact with iLab?

You must be granted access to a 26-digit fund number in CAMS before you can use it to pay for core facility services in iLab. CAMS sends account permissions to iLab each evening, so there is a slight delay between receiving access to a fund in CAMS and the fund appearing for you in iLab.

For example, if you receive appropriate access to a fund in CAMS today, it will appear as a payment option in iLab for your tomorrow.

## How can I be granted access to funds in CAMS?

You may request access to funds yourself, or you may ask your Business Administrator to grant you access. Please see the [following section](#) for detailed instructions on requesting access to funds in CAMS yourself.

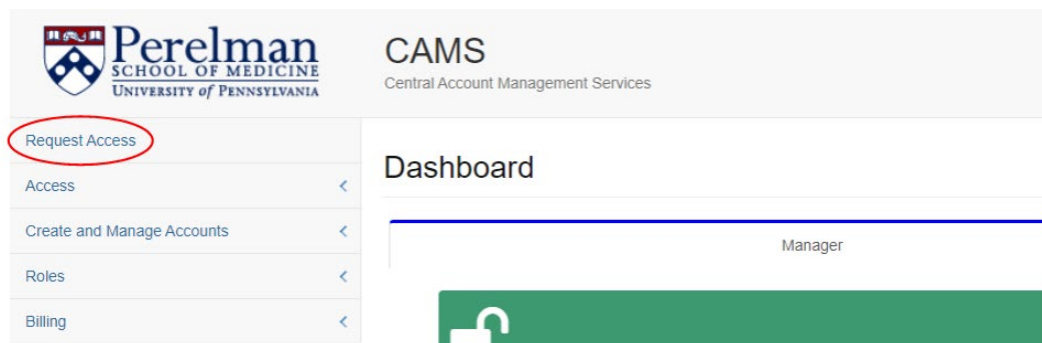

Please note that CAMS requires the information below for all account access requests:

- The spender(s) who would like to receive fund access. You may request access for yourself, or on behalf of another individual.
- The account(s) you would like to access. Please note these must be active (non-expired) accounts.
- The core(s) at which you would like to spend on the fund. You may also request to spend on the fund at all PSOM cores, if appropriate.

If you plan to ask your Business Administrator to grant you access to funds in CAMS, please be sure to provide the above information when reaching out with your request.

## Requesting access to funds in CAMS (non-BAs)

1. Visit the website below and log into CAMS with your PennKey.  
<http://www.med.upenn.edu/apps/cams/users/dashboard>
2. Click the “Request Access” link in the upper left side of the page.

3. Enter your name. You may also enter the names of other individuals to request access on their behalf. Individuals you add will appear in the “Selected Spenders” column.

## Request Access

You can request access to accounts and cores for yourself and others.

Select Spenders      Select Accounts      Select Cores

Search for and select one or more users

User last name, first name

Selected Spenders      Selected Accounts      Selected Cores

**Request Access**

You can monitor your pending access requests by clicking the “Spender” tab on the CAMS dashboard.

Please note that CAMS sends account permissions to iLab each evening, so there is a slight delay between receiving access to a fund in CAMS and the fund appearing for you in iLab.

For example, if you receive appropriate access to a fund in CAMS today, it will appear as a payment option in iLab for your tomorrow.

### **I am a Business Administrator. How can I grant access to funds in CAMS?**

Please visit [https://www.med.upenn.edu/apps/cams/documentation/manage\\_access](https://www.med.upenn.edu/apps/cams/documentation/manage_access) for extensive instructions on adding, managing, and viewing access to accounts.

Please note that in addition to granting access to a specific fund, you must also specify the core or cores where the user may spend the fund. CAMS sends account permissions to iLab each evening, so there is a slight delay between granting access to a fund in CAMS and the fund appearing for the user in iLab.

For example, if you grant appropriate access to a fund in CAMS today, it will appear as a payment option in iLab for the user tomorrow.

### **I was granted access to a fund in CAMS, but it is not appearing for me in iLab. Who can I contact?**

Most commonly this is because you have just recently received access to the fund in CAMS. CAMS sends account permissions to iLab each evening, so there is a slight delay between receiving access to a fund in CAMS and the fund appearing for you in iLab. For example, if you received appropriate access to a fund in CAMS today, it would appear as a payment option in iLab for your tomorrow.

If it has been more than 24 hours since your request was approved, or if a fund you previously had access to no longer appears in iLab, please contact [iLab.Support@pennteam.upenn.edu](mailto:iLab.Support@pennteam.upenn.edu) for assistance.

### **Where can I find more extensive CAMS help documentation?**

Please visit <https://www.med.upenn.edu/apps/cams/documentation> for a wide variety of support documentation.

### **Who can I contact to receive CAMS support?**

Please contact your BA with general CAMS and account access questions. For non-access questions or technical support issues, please visit <https://www.med.upenn.edu/dart/cams.html>, and click the link for CAMS Support.

# Central Account Management System

---

## WELCOME

CAMS is PSOM's central account management system that allows business administrators to manage access to grant and non-grant Penn 26 digit accounts, and to report on activity against these accounts.

## **Who can I contact to receive iLab Support?**

iLab Support is available from a variety of sources. Please feel free to contact Penn's iLab Support at [iLab.Support@pennturner.org](mailto:iLab.Support@pennturner.org), or to submit a help ticket via your iLab Dashboard by following the steps below:

1. Visit <https://med-upenn.corefacilities.org/landing/264> to login to iLab with your PennKey
2. Click "Help" at the top right of the screen
3. Click "My tickets"
4. Click "Submit a new support ticket"

You may also chat directly with iLab support by following the steps below:

1. Visit <https://med-upenn.corefacilities.org/landing/264> to login to iLab with your PennKey
2. Click "Help" at the top right of the screen
3. Click "My tickets"
4. Click "Chat Now" at the bottom right of the screen
