Please note that you will need access to funds if you wish to order services from a Penn core facility.

To obtain access to funds in iLab, your PI or Business Administrator will need to grant you access to a 26-digit fund number in CAMS, the Penn account management system.

CAMS sends account permissions to iLab each evening, so there is a slight delay between receiving access to a fund in CAMS and the account appearing for you in iLab.

For example, if you receive appropriate access to a fund in CAMS today, it will appear as a payment option in iLab for your tomorrow.

Please contact your PI or BA and ask them to assign you to an account.
