USES AND DISCLOSURES OF YOUR PERSONAL HEALTH INFORMATION

The following categories detail the various ways in which we may use or disclose your personal health information. For each category of uses or disclosures we will give you illustrative examples. It should be noted that while not every use or disclosure will be listed, each of the ways we are permitted to use or disclose information will fall into one of the following categories.

Your Authorization. Except as outlined below, we will not use or disclose your personal health information for any purpose unless you have signed a form authorizing the use or disclosure. This form will describe what information will be disclosed, to whom, for what purpose, and when. You have the right to revoke that authorization in writing, except to the extent we have already relied upon it.

Uses and Disclosures for Treatment. We will make uses and disclosures of your personal health information as necessary for your treatment. For instance, doctors, nurses, and other professionals involved in your care will use information in your medical record and information that you provide about your symptoms and reactions to plan a course of treatment for you that may include procedures, medications, tests, etc. We may also disclose your personal health information to institutions and individuals outside the University of Pennsylvania Health System and the University of Pennsylvania School of Medicine that are or will be providing treatment to you.

Uses and Disclosures for Payment. We will make uses and disclosures of your personal health information as necessary for payment purposes. For instance, we may forward information regarding your medical procedures and treatment to your insurance company to arrange payment for the services provided to you or we may use your information to prepare a bill to send to you or to the person responsible for your payment.

Uses and Disclosures for Health Care Operations. We will use and disclose your personal health information as necessary, and as permitted by law, for health care operations. This is necessary to run the University of Pennsylvania Health System and the University of Pennsylvania School of Medicine and to ensure that our patients receive high quality care and that our health care professionals receive superior training. For example, we may use your personal health information in order to conduct an evaluation of the treatment and services we provide, or to review the performance of our staff. And, for education and training purposes, your health information may also be disclosed to doctors, nurses, technicians, medical students, residents, fellows and others.

Our Facility Directory. We use information to maintain a directory function listing your name, room number, general condition and, if you wish, your religious affiliation. Unless you choose to have your information excluded from this directory, the information, excluding your religious affiliation, will be disclosed to anyone who requests it by asking for you by name. This information, including your religious affiliation, may also be provided to members of the clergy, even if they don't ask for you by name. Please let our staff know when you check in or register if you would like to have your information excluded from this directory function.

Persons Involved In Your Care. Unless you object, we may in our professional judgment disclose to a member of your family, a close friend, or any other person you identify, your personal health information to facilitate that person's involvement in caring for you or in payment for that care. We may use or disclose personal health information to assist in notifying a family member, personal representative or any other person that is responsible for your care of your location and general condition. Finally, we may also disclose limited personal health information to a public or private entity that is authorized to assist in disaster relief efforts in order for that entity to locate a family member or other persons that may be involved in some aspect of caring for you.

Fundraising. We may contact you, at times in coordination with your physician, to donate to a fundraising effort on our behalf. If we contact you for fundraising purposes, you will be provided with the opportunity to opt out of receiving any future solicitations.

Appointments and Services. We may use your personal health information to remind you about appointments or to follow up on your visit.

Health Products and Services. We may from time to time use your personal health information to communicate with you about treatment alternatives and other health-related benefits and services that may be of interest to you.

Research. We may use and disclose your personal health information as permitted or required by law, for research, subject to your explicit authorization, and/or oversight by the University of Pennsylvania Institutional Review Boards, committees charged with protecting the privacy rights and safety of human subject research, or similar committee. In all cases where your specific authorization has not been obtained, your privacy will be protected by confidentiality requirements evaluated by such committee. This is necessary to investigate cutting-edge health care through improved treatments, medications and outcomes research. For example, you may be approached by your physician to ask if you would be interested in participating in a clinical trial of a new drug for your condition. Or, your health information may be used with the approval of the committee charged with protecting the rights of research subjects, described above, to conduct outcomes research to see if a particular procedure is effective.

Business Associates. Certain aspects and components of our services are performed through contracts with outside persons or organizations, such as auditing, accreditation, legal services, etc. At times it may be necessary for us to provide certain of your personal health information to one or more of these outside persons or organizations who assist us with our payment/billing activities and health care operations.
