

Penn Cardiovascular Institute *Summer Undergraduate Fellowship Program*

Funded by the American Heart Association

The Summer Undergraduate Fellowship Program at Penn CVI allows undergraduates, including those who are underrepresented in medicine or from smaller institutions without extensive research programs, to gain exposure to state-of-the-art cardiovascular research. This immersive program offers students hands-on experience in laboratories with faculty mentors who are members of CVI.

Examples of Types of Cardiovascular Research:

Cellular and Molecular Biology
Physiology
Vascular Biology
Genetics and Genomics
Bioinformatics
Cardiac metabolism
Patient-oriented research
Implementation science
Health equity and epidemiology

Program Details:

10 weeks, June 3 – August 10, 2024
\$6,000 stipend, plus conference funds
Participation in Summer Symposium
Weekly breakfasts with faculty
