The Office of the Vice Provost for Research is providing full access to the Nature Masterclasses series. The thirteen courses in this series, focused on professional development for researchers, are accessible immediately following a simple registration using Penn’s Single Sign-On.

NATURE Masterclasses for Penn’s Research Community

The Office of the Vice Provost for Research is making a new online resource available to the research community across Penn’s campus. The University of Pennsylvania has an institutional subscription to Nature Masterclasses. As a member of Penn’s research community, this subscription grants you access to all available online courses on the Nature Masterclasses platform.

Make the most of our university’s subscription! See below for details on what the courses are about and how you can get access to the content.

What can you learn in 20 minutes?

The Nature Masterclasses online courses are specifically designed to be used on demand and at your pace. They are bite-sized (10–20-minute lessons) so you can dip in and out during natural gaps in your work. You choose your learning path – whether that is working through a course in order or dipping in and out of modules.

The courses are designed to be interactive with in-lesson activities that will keep you engaged and give you plenty of opportunities to practice using new skills and concepts.

You will learn techniques and strategies to develop your skills and confidence across a range of essential research activities. You’ll be able to apply these skills to your everyday professional life but also leverage them to develop your career.
You have access Penn’s subscription. Access your training now! Register via Single Sign-On, using your institutional login details to access the courses:
https://masterclasses.nature.com/register

Your subscription includes access to all courses on the Nature Masterclasses platform. These currently include:

- Scientific Writing and Publishing
- Effective Collaboration in Research
- Managing Research Data to Unlock its Full Potential
- Narrative Tools for Researchers
- Focus On Peer Review
- Persuasive Grant Writing
- Networking for Researchers
- Advancing Your Scientific Presentations
- Data Analysis: Planning and Preparing
- Data Analysis: Conducting and Troubleshooting
- Interpreting Scientific Results
- Finding Funding Opportunities
- NEW! Experiments: From Idea to Design

How can I get access to the courses?
UPenn’s access to Nature Masterclasses is provided via Single Sign-On.

1. Visit masterclasses.nature.com
2. Go to the Registration page and select University of Pennsylvania as your institution
3. Complete your profile and confirm Penn email address
4. Log in via our institutional portal using your normal institutional login details

If you need further assistance with your course access, please refer to the Help page on the Nature Masterclasses website, where you will find further useful information, FAQs and contact details for the Masterclasses support teams.

Return to Nature Masterclasses anytime
Go to the Research Hub on the OVPR website to return to your classes or to start another.
