

Funding information: Budgeting your Global Health Experience

As part of the Registration process, please review and acknowledge the following information to be eligible for CGH Funding:

- I understand that my GHE Registration must be received no later than 6 weeks prior to my experience start date. This includes submission of both Parts 1 & 2. Failure to do so will result in my ineligibility for CGH Funding.
- I understand that CGH Funding is not meant to cover all costs, but rather a stipend towards my travel costs. I have reviewed the amount awarded to my destination on the CGH website and I should budget accordingly.
- I understand that CGH Funding includes a partial airfare reimbursement prior to my departure and the amount of my reimbursement is dependent upon my global health experience destination. Also, that my itinerary must demonstrate that I arrive to my destination before my experience start date and leave after my experience end date. Itineraries will not be approved for reimbursement that don't meet this requirement.
- I understand that CGH will review an itinerary before it is purchased to make sure it meets the criteria – however CGH is not responsible for any fees associated with the need to change a flight because it doesn't comply with the requirements.
- If going to Botswana – I understand that housing will be provided to me and I will receive a Post-Travel reimbursement of \$250. Also, that I will need to send my itinerary to Josephine Thankane in order to arrange airport pickup and accommodation reservations.
