

Institute for
Diabetes,
Obesity, and
Metabolism

**ALL SEMINARS ARE HYBRID
IN SMILOW CENTER (SCTR) 12-146
TUESDAYS AT
11:00 AM**

IDOM/DRC Seminar Series - Fall 2025

SEPTEMBER 17 @ 3:00 PM

Meyerhof-Matschinsky Lecture

Joshua Rabinowitz, MD, PhD

Princeton University

Rubenstein Auditorium

"TBD"

SEPTEMBER 23

Nora Kory, PhD

Harvard T.H. Chan School of Public Health

"Mitochondrial Transporters and the Control of Cellular Metabolism"

SEPTEMBER 30 @ 12:00 PM

IDOM/CVI Joint Seminar

Robert Farese, MD

Memorial Sloan Kettering Cancer Center

"TBD"

OCTOBER 7

Matthew R. Hayes, PhD

University of Pennsylvania

"Discovery of a Downstream Gliotransmitter System From GLP-1 Therapeutics for the Treatment of Obesity & Diabetes Without Nausea / Emesis"

OCTOBER 14 - NO SEMINAR

ITMAT Symposium

OCTOBER 21

Brett Shook, PhD

George Washington University

"Rewriting the Script: Stomal-Immune Cell Communication as a Therapeutic Target for Diabetic Wound Healing"

OCTOBER 28

Melina Claussnitzer, PhD

Harvard Medical School

"Traversing the Path from Metabolic Disease Genetics to Actionable Disease Biology"

NOVEMBER 4

Doris A. Stoffers, MD, PhD

University of Pennsylvania

"Pancreatic Beta Cell Adaptation to Metabolic Stress"

NOVEMBER 11

Anthony W. Ferrante Jr., MD, PhD

Columbia University

"Why Don't I Weigh More? A System That Limits Weight Gain in Mammals"

NOVEMBER 18

Student Invited Speaker

Evan D. Rosen, MD, PhD

Broad Institute of MIT and Harvard

"Oxytocin: New Metabolic Roles for an Ancient Hormone"

NOVEMBER 25 - NO SEMINAR

HOLIDAY

DECEMBER 2

Roberto Zoncu, PhD

UC Berkley

"The Lysosome in Nutrient Sensing and Cellular Growth Control"

DECEMBER 9

Alan R. Saltiel, PhD

UC San Diego School of Medicine

"Adapting to Metabolic Stress"

DECEMBER 16

Jonathan Z. Long, PhD

Stanford University

"Chemical Control of Energy Metabolism"

DECEMBER 23 - NO SEMINAR

HOLIDAY

Co-sponsored by the IDOM, DRC NIH DK 19525, George S. Cox Medical Research Institute and Levy J. Hammond Lecture Fund
