

Institute for
Dibetes,
Obesity, and
Metabolism

**SEMINARS HELD
IN SMILOW CENTER (SCTR) 12-146
TUESDAYS AT
4:00 PM**

IDOM/DRC Seminar Series - Spring 2025

- Jan. 14** **George A. Kyriazis, PhD**, The Ohio State University - *“Receptor-Mediated Glucose Sensing: Exploring ‘Sweet’ Pathways in Skeletal Muscle and Metabolism”*
- Jan. 21** **Andrea Galmozzi, PhD**, University of Wisconsin-Madison - *“Mechanisms of Metabolic Signaling in Adipose Tissue”*
- Jan. 28** **Kate Townsend-Creasy, PhD**, University of Pennsylvania - *“Ppp1r3b Regulation of Liver Metabolism and Opportunities for Precision Nutrition Interventions in Metabolic Disease”*
- Feb. 11** **David Merrick, MD, PhD**, University of Pennsylvania - *“Adipose Biomechanics in Obesity and Weight Loss”*
- Feb. 18** **Juan D. Matute, PhD**, University of Pennsylvania - *“Intelectin-1: Insights Into Intestinal Host-Microbiota Dynamics in IBD and Obesity”*
- Feb. 25** **Phillip J. White, PhD**, Duke Molecular Physiology Institute - *“A Compartmentalized View of The Mechanisms Linking BCAA to Cardiometabolic Health”*
- Mar. 4** **Theodore G. Drivas, MD PhD**, University of Pennsylvania - *“The Primary Cilium as a Regulator of Insulin Receptor Trafficking and Signaling”*
- Mar. 11** **SPRING SYMPOSIUM & KROC LECTURE - E. Dale Abel, MD, PhD** - David Geffen School of Medicine and UCLA Health - *“Mitochondrial Mechanisms for Cardiometabolic Disease”*
- Mar. 18** **Yong Xu, MD, PhD**, Baylor College of Medicine - *“The Hunger Games: Catching Fire of Melanocortin Neurons”*
- Mar. 25** **Marcia C. Haigis, PhD**, Harvard Medical School - *“Lessons Learned Studying Mitochondria and Aging”*
- Apr. 1** **Alan Saltiel, PhD**, UC San Diego School of Medicine - *“Adapting to Metabolic Stress”*
- Apr. 15** **Randy Seeley, PhD**, University of Michigan - *“Changing The Set Point: Surgery Versus Pharmacology for The Treatment of Obesity”*
- Apr. 21** **HAMMOND LECTURE - Anna Louise Gloyn, PhD**, Stanford University - *“TBD”*
- Apr. 29** **Jason Winnick, PhD**, University of Cincinnati College of Medicine - *“(Gluca)gon but not forgotten: the exploration of novel pathways to lower the risk of hypoglycemia in people with diabetes”*
- May 6** **Zachary Knight, PhD**, UC San Francisco - *“Learning From Post-ingestive Rewards”*
Student Invited Speaker
- May 13** **Carla Greenbaum, MD**, University of Washington Medicine - *“Prediction and Disease Modifying Therapy in Type 1 Diabetes - What’s Ahead?”*
- May 21** **David J. Glass MD**, Regeneron Pharmaceuticals - **CVI/IDOM** – *“TBD”*

Co-sponsored by the IDOM, DRC NIH DK 19525, George S. Cox Medical Research Institute and Levy J. Hammond Lecture Fund
