

Destruction of Clinical Trial Medications for Studies Not Previously Managed by IDS

While the IDS strongly encourages use of our services in the conduct of clinical trials, the IDS does have the ability to arrange for proper destruction of used, damaged or expired clinical trial medications for other trials as well. We CAN accept medications and associated packaging, but NOT narcotics, dangerous substances, or medical devices.

Refer to the chart below to determine the level of service you are requesting. We will weigh the package upon receipt, prior to destruction. Complete the first half, have your business manager complete the second half, then bring this form with the medications, to the IDS.

Study Name: _____

IRB or IACUC Number: _____ Study status: All treatments completed Treatments still ongoing

Investigator: _____ Department or School: _____

Contact person (name and phone/email): _____

Medication(s) included (list/names only): _____

Service Requested: 1 2 3 4 Documentation Provided: Written Inventory None Other: _____

Business Manager Name/Phone/email: _____

Embossment: Account number to use (26 digits): _____-5340-_____

Signature: _____ Date: _____

		Up to 2 kg	3 to 4 kg	Each additional kg
1	Incineration only (no other services) <ul style="list-style-type: none"> Medications are provided to IDS with names blocked out All products brought to IDS with a written inventory on IDS forms or Sponsor's forms 	\$ 49	\$ 59	\$ 5 per kg
2	Incineration (inventory verified, documentation provided) <ul style="list-style-type: none"> IDS will provide copy of EPA manifest for study records Medications are provided to IDS with names blocked out All products brought to IDS with a written inventory on IDS forms or Sponsor's forms, IDS will verify counts prior to destruction 	\$ 58	\$ 69	\$ 7 per kg
3	Incineration (inventory performed by IDS, documentation provided for study records) <ul style="list-style-type: none"> Medications provided to IDS with names blocked out IDS will perform inventory and write up product for destruction IDS will provide inventory of items along with copy of EPA manifest for study records 	\$ 89	\$ 99	\$ 11 per kg
4	Incineration (drop-off as-is, IDS performs complete inventory/write-up, handles destruction and provides full documentation back for study records) <ul style="list-style-type: none"> IDS will perform inventory and write up product for destruction IDS will provide inventory of items along with copy of EPA manifest and an official certificate returned from the incineration facility, for study records 	\$ 99	\$ 109	\$ 12 per kg
