9.10.2019
NOAH PALM, PhD
Assistant Professor
Department of Immunobiology
Yale School of Medicine
“Illuminating the ‘dark matter’ of the bioactive microbiota metabolome”

9.17.2019
DAVID HILDEMAN, PhD
Professor
Division of Cellular and Molecular Immunology
Cincinnati Children’s Hospital Medical Center
“A novel T follicular helper population links “Inflamming” and age-related immune suppression”

9.24.2019
PHILIPPA MARRACK, PhD, FR S
Distinguished Professor
University of Colorado School of Medicine
National Jewish Health
“MHC: What it means to be an F1”

10.15.2019
TROY RANDALL, PhD
J. Claude Bennett Professor
Department of Medicine
University of Alabama at Birmingham
Title to be announced

10.22.2019
RUSSELL VANCE, PhD
Professor
Department of Immunology and Cell Biology
University of California, Berkeley
“Intracellular immune detection of intracellular bacterial pathogens”

10.29.2019
KEVAN HEROLD, MD
Professor
Department of Immunobiology and Medicine
Yale University
“Effects of anti-CD3 antibody in Type 1 diabetes: Prevention and delay”

11.05.2019
DEFU ZENG, PhD
Professor
Department of Diabetes Immunology
City of Hope
“Tissue-resident T-B interaction in autoimmune-like chronic GVHD pathogenesis”

11.12.2019
FOTINI GOUNARI, PhD
Associate Professor
Department of Medicine
University of Chicago
“Co-operative signaling in double positive thymocytes”

11.19.2019
BURKHARD LUDEWIG, DVM
Professor and Head
Institute of Immunology
Kantonsspital St. Galen, Switzerland
“Fibroblastic reticular cells at the nexus of innate and adaptive immunity”

12.03.2019
MICHAEL B. BRENNER, MD
Theodore Bevier Bayles Professor
Department of Medicine, Harvard Medical School
“Redefining pathology in rheumatoid arthritis emerging from single cell technologies”

12.10.2019
BRITT GLAUNSINGER, PhD
Professor
Department of Plant and Microbial Biology
University of California, Berkeley
“Controlling the message: herpesviral manipulation of the gene expression landscape”

12.17.2019
NIR HACOHEN, PhD
Director
Center for Cancer Immunology
Massachusetts General Hospital
Title to be announced

Funding for Immunology Research in Progress is provided by:

THE INSTITUTE FOR IMMUNOLOGY
THE DEPARTMENT OF PATHOLOGY AND LABORATORY MEDICINE
THE DEPARTMENT OF MEDICINE
DEPARTMENT OF SURGERY
