

# NIDDK Medical Student Research Program in Diabetes and Obesity 2021

## WHAT:

Conduct laboratory-based, clinical, or translational research under the direction of an established scientist in the area of diabetes or obesity. Prior research experience is not required.

## WHEN:

Summer between the first and second year, or between the second and third year, of medical school.

## WHY:

Encourage medical students to consider a research career focused on diabetes or obesity.

## WHERE:

Massachusetts General Hospital  
University of Washington  
Vanderbilt University Medical Center  
Joslin Diabetes Center  
Washington University  
University of California, San Francisco  
University of California, San Diego  
Yale University  
University of Pennsylvania  
Columbia University  
University of Chicago  
Indiana University-Purdue University at Indianapolis  
University of Colorado  
Stanford University  
Duke University  
Kaiser Foundation Research Institute

## Information and Application:

- Students conduct research with an established scientist in the areas of diabetes, hormone action, physiology, islet cell biology or obesity for 2-3 months (receive a stipend).
- Weekly seminars about diabetes and obesity.
- Students present results at a national research symposium July 28-29, 2021.
- Commencement dates and conclusion are flexible.

**Application deadline for summer 2021:  
11:59 pm CST January 25, 2021**
