CONTINUING YOUR CARE  
in the comfort and convenience  
of your home

# PENN HOME INFUSION THERAPY

Providing a convenient option, allowing patients to receive care in the location that best meets their daily routine.

## What is Home Infusion Therapy?

While undergoing medical treatment, you may need intravenous medications after you leave the hospital or upon order from your doctor. Receiving these treatments at your doctor's office or the hospital may be inconvenient and disrupt your daily routine. For easier access to your medications, consider the option of home intravenous infusion.

Our infusion nurses will come to your home, provide you with medication, supplies and equipment, and give you the instructions on your treatment and its application. Penn Home Infusion Therapy, a program of Penn Medicine At Home, will allow you to continue your care in the comfort and convenience of your home, and provide you with more flexibility and independence in your daily routine.

## COMMON THERAPIES

available through Penn Home Infusion Therapy include:

- Antibiotics
- Biologics
- Catheter Care
- Chemotherapy
- Nutrition
- Hemophilic Therapies (Factor)
- Immune Globulin
- Milrinone
- Steroids
- Supportive Therapies
  - Anti-emetics
  - Colony Stimulating Factor
  - Hydration (IVF)
  - Pain Management (PCA)

## COMPREHENSIVE CARE

We offer comprehensive, wrap around care, managing all aspects of a patient's infusion therapy in the home.

- Best-Practice, disease specific care teams that allow for expertise across oncology, nutrition, infectious disease, cardiology, and pain management.
- Customized patient care plans developed by a multidisciplinary team that includes nurses and infusion pharmacists.
- Collaboration with Penn Medicine at Home's comprehensive programs to meet individualized patient needs.
- Easy-to-read visual training aides that are therapy specific for patients and their families.
- Nurses and managers available 24 hours a day/7 days a week.
- Consistently strong patient, family, and care team satisfaction.
