# UPDATES IN ONCOLOGY 2022 PHILADELPHIA

## with Proceedings from International Medical Meetings

A CME/CNE-accredited Conference

### Post Conference Details

After the conference has concluded, all attendees will receive an email from Penn CME with instructions on how to complete the post-test, evaluation, claim credit and obtain a certificate.

Look for the email early NEXT WEEK.

If you missed the Pre-Test, you will still get your certificate after you complete the Post-Test and Evaluation. A Certificate of Participation is available to attendees who are not physicians or nurses.

### **AFTER THE CONFERENCE LINKS TO MEETING VIDEOS CAN BE FOUND:**

Website: [PennMedicine.org/Abramson/Onc2022](https://PennMedicine.org/Abramson/Onc2022)

*\*Recordings from the meeting will be available Thursday, June 30th through June 2023*

### Overview

This in-person and virtual activity is designed to efficiently discuss the most recent clinical advances in oncology. The meeting will address the questions that have emerged from the latest data presented at major international annual meetings. Activity format will provide opportunity for interaction with Penn Medicine faculty and other attendees. Participants will gain up-to-date, practical information with immediate clinical application, as well as a technical and scientific background on the current state of the field and emerging advances.

### Learning Objectives

Upon completion of this conference, participants should be able to:

- Implement COVID 19 disease prevention policies for cancer patients
- List changes in cancer management for patients affected by COVID 19
- Identify recent advances in immunotherapy for cancer treatment
- Implement new clinical findings to a broad range of tumor types
- Identify issues related to extent of therapy by genomics, stage and patient condition

### Who Should Attend

This activity has been designed for medical, surgical and radiation oncologists, hematologists/oncologists, hematology/oncology fellows, radiologists, neuro-oncologists, thoracic surgeons, urologists, gastroenterologists, pulmonologists, dermatologists, oncology nurses, and other healthcare professionals involved in the treatment of patients with cancer.
