

## **Preference Assessment and Patient Centered Prostate Cancer Care**

The Division of Urology and Department of Medicine at the University of Pennsylvania is seeking men with newly diagnosed prostate cancer for participation in a research study.

This research study will evaluate your preferences for treatment attributes and the effectiveness of a computer-based preference assessment tool.

You **may** be eligible to participate in the study if you are:

- A man
- 18 years or older
- Newly diagnosed with prostate cancer
- Patient at the University of Pennsylvania Health System (UPHS)

This is a two-year study and you will be compensated for your time.
