We Need Your Opinion For An IS Master's Program!

We are looking to create a Master's in Implementation Science Program at The University of Pennsylvania. First we need your help in determining the best program structure! Please fill out the 4 question survey below.

PISCE Education Survey

The 8th Annual Penn Implementation Science Institute (ISI) Was a Success!

This year The Penn Implementation Science Center (PISCE) and Master of Science in Health Policy research (MSHP) hosted the 8th Annual Penn Implementation Science Institute with ***over 100 attendees*** from across the globe! A special thank you to all of our amazing facilitators, session speakers and keynote speaker (Facilitators & Session Speakers - LauraEllen Ashcraft, Emily Becker-Haimes, Amanda Bettencourt, Christopher Bonafide, Nicki Burdock, Katherine Courtright, Danielle Cullen, Rebecca Hamm, Karen Glanz, David Grande, Katelin Hoskins, Stacey Kallem, Meghan Lane-Fall, Michael Posencheg, Katharine Rendle, Shazia Siddique, Sara Solomon, Amelia Van Pelt, Kimberly Waddell, and Courtney Wolk;Keynote Speaker - Priya Shete).

PISCE's Upcoming Events

Fall 2024 Luncheon + Networking
with Greg Shea, PhD, John Kimberly, PhD, and Ingrid Nembhard, PhD, MS

On September 30, 2024, from 11:30am - 1pm EST, PISCE will host a panel of business experts from The Wharton School to discuss the intersection of business, management, operations, and behavior in implementation science.

RSVP Here

October 2024 Work-In-Progress
with Beth Pineles, MD, PhD

On October 8, 2024, from 3:00pm - 4:00pm, Dr. Beth Pineles will be presenting her work-in-progress in Stemmler Hall and via Zoom.

Registration coming soon!

Fall 2024 Research Symposium
with Keynote Speaker Anne Sales, PhD, RN, FAAN

On October 16, 2024, from 8:30am - 4:30pm EST, PISCE and the School of Nursing are hosting a research symposium, Transforming Your Research Agenda with Implementation Science. It is designed with specific information for researchers at all levels of their careers and interested in increasing their knowledge of implementation science in their work.

Registration coming soon!

Know someone looking for feedback on IS-related research?

We are looking for Penn/CHOP faculty, staff or students with an implementation science lens or aim(s) in their research project to present during our Fall 2024 Work-In-Progress series!

Fall series time update: starting Fall 2024, the work-in-progress series will be on the 2nd Tuesday of each month from 3pm to 4pm.

Sign Up Here!

Educational Opportunities

Certificate in Implementation Science

Looking to develop expertise in Implementation Science? The Penn Implementation Science Certificate Program will equip the next generation of early career colleagues with the knowledge and skills needed to conduct rigorous, contextualized, and meaningful Implementation research.

Fall application deadline is July 5th.

View Program Details

Health Datapalooza
September 16-17, 2024
The Westin DC Downtown, Washington, DC

Registration is now open for the two-day even will be held in person from September 16-17, 2024, in Washington, DC. This unique event will explore data-driven collaborations between health systems and public health, the role data modernization plays in facilitating more informed policymaking, and how the public and private sector can work together to create healthier and more empowered communities. Delve into impactful presentations on data sharing and transparency and engage in thought-provoking discussions on navigating ethical considerations in data governance.

Early registration ends August 5th. Standard registration ends September 15th.

Dissemination and Implementation Science Institute
October 28-30, 2024
Washington University in St. Louis

The Institute will consist of a three-day in-person training session taking place in St. Louis on **October 28-30, 2024**. Our primary objective is to offer a transformative experience by providing cutting-edge training that equips participants to navigate the rapidly evolving field of implementation science. Additionally, the program aims to foster professional connections among participants, integrating them into the vibrant community of implementation science researchers. Daily interactive sessions and mentoring pods will be included in the institute.

Apply to participate by July 31st.

17th Annual Conference on the Science of Dissemination and Implementation *(Call for Abstracts)*
December 8-11, 2024
Crystal Gateway Marriott, Arlington, VA

The 17th Annual Conference on the Science of Dissemination and Implementation (D&I), co-hosted by the National Institutes of Health (NIH) and AcademyHealth, will convene a growing network of peers in the Washington, D.C. area to explore the latest innovations in D&I science. This year's conference theme will address the underexplored concept of the pace of D&I. Join us December 8-11, 2024, to explore methodological advancements,

challenges, and opportunities to understanding how to investigate and optimize implementation pace across health care, community and public health systems.

Abstract deadline is July 18th.

Job Opportunities

Co-Director - Senior (Full or Associate Professor-level) Investigator

The Department of Medicine at the Boston University Chobanian & Avedisian School of Medicine is recruiting a senior (Full or Associate Professor-level) investigator to join our faculty and to Co-Direct the Evans Center for Implementation and Improvement Sciences (CIIS). CIIS is an active cross-section, cross- departmental safety net implementation science center that was established in late 2015. The position includes a primary faculty appointment within the appropriate section in the Department of Medicine based on training and specialty.

Qualifications: Applicants must have a MD, PhD or other doctoral degree, implementation science research methods experience and a track record of independent funding.

For more information and how to apply, click here.

Assistant/Associate/Full Professor Tenure System in the College of Human Medicine at Michigan State University

The Department of Obstetrics Gynecology & Reproductive Biology at the College of Human Medicine at Michigan State University is seeking candidates with active extramurally funded basic/clinical/translational research programs for up to three tenure-track positions at the rank of Assistant, Associate, and Full Professor. Candidates with expertise in a wide range of women's health-related topics across the life course, including molecular and cellular assessment of placental & fetal function, ovarian and uterine biology, gynecologic cancers, reproductive immunology, chronic debilitating conditions in women, maternal health equity, addressing structural and social determinants of health and outcomes research related to pregnancy, birth and early development are encouraged to apply.

Qualifications: Applicants must have a PhD, ScD, MD, or equivalent with a record of research accomplishments and peer- reviewed publications. Joint appointments with our clinical partners are possible for those medical professionals with clinical duties.

For more information and the application, click here. **Deadline to apply is October 31, 2024.**

Assistant Professor - Epidemiology - Implementation Science at the University of Pennsylvania Perelman School of Medicine

The Department of Biostatistics, Epidemiology and Informatics at the Perelman School of

Medicine at the University of Pennsylvania is seeking candidates for several Assistant Professor positions in either the non-tenure clinician educator track or the tenure track. Expertise is required in the specific area of implementation science methods development and applications, with the ability to establish oneself as a research leader in their area of specialization.

Qualifications: Applicants must have a Ph.D. or equivalent degree.

For more information and the application, click here. **Deadline to apply is August 18, 2025.**
