Cancer Clinical Trials

What is a Clinical Trial?

Watch on YouTube

Watch later Share

Today, more and more people are surviving cancer. It is because of clinical trials, many of which are conducted at Penn Medicine, that patients are benefiting from breakthrough therapies and treatments. These new advances in cancer treatment are occurring every day, giving patients hope that even greater discoveries lie ahead.

Cancer Research

The Cancer Center enjoys a vibrant, well-funded research base, which continues to grow. We focus on reducing cancer incidence, mortality and morbidity in the community while training future cancer researchers and improving our ability to prevent, diagnose and treat cancer.
