

Principal Investigator Laboratory Safety Assurance
& Chemical Hygiene Work Plan

Principal Investigator Name: _____

Lab Rooms: _____

My lab has been trained and instructed to comply with Penn's [Chemical Hygiene Plan](#) and to conduct their work in compliance with the [Standard Operating Procedures and Fact sheets](#) and other lab safety practices detailed Penn's Chemical Hygiene Plan. The following Standard Operating Procedures apply to my laboratory (check those that apply):

Acutely Toxic Chemicals	Corrosive Liquids	Pyrophoric Chemicals	Water Sensitive Chemicals
Acutely Toxic Gases	Cryogenics & Dry Ice	Reactive Solids	Animal Inhalation Anesthetics
Carcinogens	Flammable Liquids	Reactive Liquids	Electrical Safety
Compressed Gases	Oxidizing Chemicals	Reproductive Hazards	Hazardous Drugs

Safety Assurance

My lab staff are instructed to comply with [Penn's Lab Coat and Safety Eyewear policy](#) while in the laboratory and I enforce this requirement. Additional protective equipment (such as but not limited to disposable nitrile or chemically resistant gloves, and face shields) is used depending on specific lab activities. My designee or I review the need for additional protective equipment and provide these items at no charge to lab staff. My lab maintains a written record of this protective equipment evaluation.

No eating, drinking or storage of food is permitted in my laboratories, equipment corridors or cold rooms.

Lab staff maintain current safety training. My designee or I ensure all staff receive appropriate lab specific training.
